MUNICIPAL REGULATIONS

FOR PAYMENT OF BILLS AGAINST THE CITY.

All persons furnishing materials or service for the city, or aid to the city poor, should be particular to take the name of the person ordering such service, material, or aid, and should *know* that the person is duly authorized to contract said liability.

The city will not be holden for merchandise sold or delivered on city poor account, except on the written order of the Overseer of the Poor, and for no longer time than until his successor shall have been appointed and qualified.

Duplicate copies will be required of all bills payable by the city, furnished on county poor account.

All bills against the city must be approved by the person authorizing the charge; and unless this is done, no action can be had upon the bill by the Committee on Accounts and Claims, and no order will be given for its payment.

Bills so certified should be left with the city clerk on or before the second day of the month.

If approved by the Committee on Accounts and Claims, they will be ready for payment on Thursday following the regular monthly meeting of the City Government.

The regular monthly meetings of the City Government occur on the second Monday of each month.

HENRY E. CHAMBERLIN, City Clerk.

MAYOR FRENCH'S INAUGURAL ADDRESS.

January 26, 1909.

Gentlemen of the City Council:

In assuming the duties of mayor, at the beginning of a new municipal term, I follow the custom of the able men who have preceded me in office, and submit in writing some views and recommendations for your consideration. I fully appreciate the responsibility of the office and realize that without your help my usefulness can be greatly impaired.

It is well not to forget that we are the city's servants, and the city and its citizens are not our servants; that an indifferent attention to the business affairs of the city will produce only indifferent results; that the city demands a thorough business administration economically managed, as a good business man manages his private business, being as careful as if we were working for ourselves and spending our own money, instead of the money of others. By keeping these sentiments in mind and forgetting the fact that we belong to two great political parties, we can then render a good account of our stewardship.

The city pays interest on more than one million dollars of bonded indebtedness. The assessed value of the city for the year 1908 was \$12,342,690, or the bonded indebtedness is about one-twelfth of the assessed value of its property. The bonded indebtedness should not be increased unless for some purpose which cannot be delayed, or for some unforeseen cause not now apparent. The tax rate of \$23 per

thousand dollars, for the year 1908, is higher than should obtain, and a rate of \$20 per thousand should not be exceeded, but from present conditions in which the city is placed, no hope exists to reduce the rate to that figure, conditions and circumstances for which we are not responsible.

LABOR.

I recommend the passage of an ordinance fixing the pay of able-bodied day-laborers employed by the city at \$1.75 per day of nine hours; that skilled workmen be paid union wages in their several trades; that all city work be done and performed by American citizens or by men who have declared their intention in good faith to become a citizen as provided by law.

CONTRACTS.

I recommend that all concrete and cement work for the city be let to the lowest responsible bidder; that all other contracts of any importance should also be let to the lowest responsible bidder.

(There should be no question raised against these propositions.)

FIRE DEPARTMENT.

No city of the size of Concord has a better fire department. The personnel of the department cannot be easily improved. From the chief down, the men are steady, honest, faithful and competent, and all can rest assured of an efficient discharge of their duties. In this department, the city gets the worth of its money.

Soon there should be improvements made at the Central station on Warren street; the stalls for the horses should be changed to the rear of the apparatus, in order to guard against accidents at alarms, and for a speedy response to calls. Delay is now occasioned by reason of the horses being in a wing at one end of the station. Such delay may at any time be the cause of a great conflagration. This change will necessitate additional land in the rear of the station and some expense in building the addition for the horses.

The great growth of the city south of West and Clinton streets will, in the near future, call for better fire protection in that locality. This may not be necessary during the present municipal term.

POLICE DEPARTMENT.

The law establishing a police commission for the city of Concord deprived it of the right to appoint its police officers, although since the existence of this commission good men, as a rule, have been selected for police officers. I am opposed to this manner of selecting them. The police officers should be chosen by the city council the same as other officers, and be subject to removal by it for sufficient reason. A department of such importance to the good order of the city should be under the control of the city. A police commission appointed by the governor of the state is wholly outside of the control of the city, and the city has no control over its police officers. It comes to this, that our police are state, not municipal officers, subject not to the orders or control of the city.

This criticism of the manner of the appointing of the police does not extend to the men themselves. I am happy to say that as a body our police are good, efficient men.

HIGHWAY DEPARTMENT,

I regret that I cannot speak with the same praise for this department which I can for others. It appears that the amount of money expended does not return its full benefit.

The highways extending from the city do not compare favorably with the highways with which they connect at adjoining towns. It is common observation that the adjoining towns have better roads than the connecting roads from the city. The public on our country roads drive through the same mud holes and over the same rocks, fast and loose, for years, and should one of either be missed, it would excite comment. It is an easy matter to tell where the town lines cross the roads by the difference in the surface of them. It is no uncommon thing in late years to have expensive paving which has been down only a few years, and which would wear a century, taken up and another surface laid down. Stones are hauled to the stone-crusher instead of the stone-erusher being installed at the quarry dumps. Macadam is laid thin, so thin that the heavy teaming over it in a few years wholly destroys it, and the surface once macadamized becomes half rock and half dirt. not so good as a hard gravel surface.

Streets are sprinkled once a day only, in some localities in the city. These streets are quickly dried and no benefit comes to the adjoining owner; about the only practical good which can come from sprinkling the streets is over the streets through which the street cars run and the main business streets; the money expended outside of these localities is substantially thrown away. The railroad operating through our streets should oil the ground over which their tracks run and for a sufficient distance on each side, so that a cloud of dust could not be raised every fifteen minutes, to be drifted into the adjoining houses, making an unnecessary nuisance.

In the hands of a competent man, much improvement could be made in our streets and highways with no greater outlay of money, and such competent man should devote his whole time to the city service.

SOLDIERS' RELIEF.

Those who fought and won the battle for the emancipation of a race from chattel slavery deserve the most generous treatment, and I trust all that is possible in this direction will be freely done, and I trust that when a case of this nature presents itself to our overseers of the poor, it will receive prompt attention.

LIGHTING STREETS.

Well-lighted streets are a necessity for the safety and convenience of the public, and it is unfortunate that the city is dependent on one company for its electric lights, and I welcome any other company which might apply for a license to enter the city. No lights now established can be dispensed with and more must be installed, and under present circumstances the appropriation for this purpose will steadily increase, while if a reasonable price could be secured, a much better service could be had without additional expense.

TAXATION.

Every eitizen should bear his just proportion of the public tax. Whether this is done or not depends greatly on the courage and efficiency of the board of assessors. This board, composed of nine members, one from each ward, have wofully neglected their duties. Many stocks of goods are not taxed for more than one-third of their actual value, none as a rule taxed as high in proportion as real estate. Much real estate is not taxed in proportion to its value with other real estate; money, bank stock, bonds, mortgage and other securities, escape from taxation almost wholly, casting an unequal and unjust burden upon other property which is in sight. This evading of taxation is partly secured by borrowing money just before the first day of

April for the very purpose of avoiding being taxed, partly by false inventories, and greatly assisted by the lack of courage on the part of the board of assessors and by favoritism.

I recommend to the new board of assessors that they fearlessly perform their important duty, and theirs shall be the glory and praise evermore.

WATER DEPARTMENT.

This department is in first-class condition. There have been laid about fifty-three miles of cast-iron pipes. There remain about thirteen miles of cement-lined pipe to be replaced. Soon the old pipe will all be replaced and the expense of maintaining the system reduced greatly; at that time there will annually remain a large sum to apply towards the payment of the water bonds. Much work has been done to clean up the shores of Penacook Lake and to preserve the water from pollution. It has been customary, for years, with the exception of one municipal term, to appropriate the sum of six thousand dollars for this department, and it is called an appropriation for hydrant service. This money is paid to the water board, and carried by them as an income from the system. In view of the prosperous condition of this department, I recommend the discontinuance of this appropriation; nothing is gained by it in any view, it is taking money from one hand and placing it in the other, a scheme of raising revenue hard to understand.

PARKS.

The expense incurred by the maintenance of the several parks is money well spent, especially for White's, Rollins' and Penacook Parks. These three are open at all times to 'be public, and give a chance for young and old to get the fresh air and the comforts of good shade; they make suitable and accessible places for the young to play in and are much needed. All reasonable facilities should be furnished in all the parks for the accommodation of the public, and they should continue to be kept in the present good condition.

PUBLIC LIBRARY.

The benefits to be derived from a good public library cannot be discounted. Such a one we have. The management is good, and the appropriations heretofore made appear to be sufficient. No necessity now exists for an enlargement of the present library building or the purchase of additional land or buildings. No additional burden should be placed upon the tax-payers for the library.

HOSPITALS.

It has been customary for years to make an annual appropriation for the Margaret Pillsbury General Hospital of \$3,000. I suppose this sum is given partly as a gift and partly to pay for the care of needy persons sent there by the city, who in their distress are unable to provide for their own care; this is well. From many reliable sources come complaints of neglect of various kinds, towards unfortunate people who have to be carried there. In view of the fact that the city contributed generously towards the support of this institution, I feel warranted in suggesting that the cause of complaints be removed.

On South Street is located the Memorial Hospital for Women and Children, an institution organized some years later than the Margaret Pillsbury General Hospital. From reputation this hospital is well managed and deserving of help.

If the same amount is appropriated for the support of hospitals the present year as in past years, I recommend

that one-third thereof be donated to the Memorial Hospital. The amount appropriated, if any, for the hospitals, should be a credit to the city, on account of any dependent persons who may be sent there by the city, and no charge should be made for such dependent persons until the appropriation is exhausted.

BOARD OF HEALTH.

We all recognize the importance of this branch of the city government and its efficient management, but I consider the expense at the present time of this branch more than is necessary. It appears that the health officer has sufficient time to attend to the duties of this office and should not require the assistance of a clerk. Such reports and records as are made and kept in his office surely can be done by himself, and I recommend a curtailment of expense in this office.

OTHER DEPARTMENTS.

I shall submit to you in relation to these and the departments that I have specifically mentioned such other recommendations as occasion requires.

SECRET SESSIONS.

I am at a loss for a reason why any of the public business of the city should be done behind closed doors, in secret sessions. This practice savors of some unhealthy condition in the public service, the very thing of which the public should be thoroughly informed. I know of no secret business to be done for the city. The public should be admitted, if it chooses to attend, to all meetings of the city government or to any investigations. The city fathers' lights should not be hid, and a record should be kept of their votes on important subjects.

SUSPENSION OF THE RULES.

It has been a custom of late to pass important ordinances, resolutions and other matters under the suspension of the rules. I hold that all matters of importance should be referred to the proper committees, properly considered, opposed if necessary, and passed or rejected in the usual manner after due deliberation.

CITY CHARTER.

There are many important changes which could be made in the city charter; as time passes old ways and methods once sufficient become unnecessary or inadequate. I suggest the following as some of the changes:

The abolition of the city council.

The abolition of the police commission.

The control of the police department by the eity.

The election of street commissioner by the people.

The adoption of the initiative and referendum.

The granting of franchises for a consideration, no more free gifts of valuable rights.

The right to regulate the charges of such public service corporations, such as gas, electric light and telephone companies.

PROGRESS.

I recommend the placing of the least possible number of poles in the public streets, for the support of wires; the placing of all wires in conduits under ground; the protection of shade trees from injury by wires; a more thorough method or way of making permanent repairs on highways; the scaling down of salaries to a fair compensation for the services rendered, taking into account the ability of the public servants.

In conclusion, I ask for your faithful eo-operation in con-

ducting the business of the city, without fear, prejudice or jealousy. The majority of the votes of the city have placed its management in our hands, trusting in our honesty, expecting a good business administration, not expecting us to perform impossibilities, or correct mistakes long since made, but to carry things with an even, steady hand, profiting by the experience of the past and doing our plain duty. I would urge upon you the importance of careful and conscientious effort during your term of office. Into your hands have been entrusted the management of the affairs of this municipality. Time, patience and fidelity will be demanded in the performance of your duties. You will doubtless disagree on many questions, but however widely you may differ you should not forget that the eyes of the world are upon you. When you leave this hall, you will go out as public servants sworn to the faithful performance of the trust reposed in you by the people. Let it not be said that you failed in your duty to your fellow citizens, to vourselves and to humanity.

ORDINANCES AND JOINT RESO=

Passed During the Year Ending January 18, 1909

CITY OF CONCORD-ORDINANCES.

AN ORDINANCE REPEALING "AN ORDINANCE ESTABLISHING THE OFFICE OF A CITY AUDITOR, ETC.," PASSED MAY 12, 1896.

Be it ordained by the City Council of the City of Concord as follows:

Section 1. That "an ordinance establishing the office of City Auditor, defining his duties, providing for his appointment and pay, and also an amendment of Chapters 4 and 37 of the Revised Ordinances relating to finances and accountability in expenditures and the salary of the City Clerk, and Chapter 33 of said Revised Ordinances relating to printing of city reports," passed May 12, 1896, be and the same is hereby repealed with the exception of Section 17 of said ordinance relating to the pay of the City Clerk, which Section 17 is to remain in full force and effect.

SECT. 2. So much of Chapter 4 and Chapter 33 of the Revised Ordinances as was repealed by the ordinance establishing the office of City Auditor is hereby re-enacted.

Sect. 3. This ordinance shall take effect upon its passage. Passed February 10, 1908.

AN ORDINANCE FIXING AND DETERMINING THE AMOUNT OF MONEY TO BE RAISED ON THE TAXABLE PROPERTY AND INHABITANTS WITHIN THE LIMITS OF ST. PAUL'S SCHOOL SEWERAGE PRECINCT FOR THE ENSUING FINANCIAL YEAR.

sum of	1,500.00

\$12,013.00

SECT. 2. There shall be raised in like manner the sum of fortynine thousand seven hundred two and fifty one-hundredths dollars (\$49,702.50) for the support of schools for the ensuing financial year, which together with the income of the Abial Walker Fund, shall be appropriated and divided among the several school districts according to the valuation thereof.

SECT. 3. In addition to the foregoing there is appropriated for the cemeteries of the city one half of the income from the sale of lots and the income derived from the eare of lots and grading, which sum shall be deposited by the superintendent, or others receiving them, in the city treasury. The care of lots for which the city holds trust funds shall be paid from the money appropriated for the care of cemeteries and so much of the income of these trust funds as may be thus expended shall be deposited in the city treasury at the close of the year and the remainder, in each instance, credited to the individual funds.

SECT. 4. In addition to the foregoing there is appropriated for the use of the public library in the purchase of books, the amount collected for fines.

Sect. 5. This ordinance shall take effect upon its passage. Passed March 9, 1908.

AN ORDINANCE PROVIDING FOR THE CLOSING OF THE OFFICES IN THE CITY HALL BUILDING SATURDAY AFTERNOONS.

Be it ordained by the City Council of the City of Concord as follows:

Section 1. The city hall and all of the offices therein shall be closed Saturdays at twelve o'clock noon during the months of June, July and August; except the tax collector's office, which shall be kept open the Saturday afternoon and evening preceding the last day on which taxes can be paid with the discount.

Passed June 8, 1908.

JOINT RESOLUTIONS.

A JOINT RESOLUTION APPROPRIATING A SUM, NOT EXCEEDING SEVEN-TEEN HUNDRED DOLLARS, FOR THE INSTALLATION OF A TELEGRAPH FIRE ALARM SYSTEM IN WARD ONE.

Resolved by the City Council of the City of Concord as follows:

SECTION 1. That a sum, not exceeding seventeen hundred dollars, be and hereby is appropriated, out of any money in the treasury not otherwise appropriated, for the purpose of installing a telegraph fire alarm system in Ward 1. The installation of said system shall be under the charge and direction of the chief engineer of the fire department. The sum expended as above shall be charged to the expenses of the fire department.

Passed February 10, 1908.

A JOINT RESOLUTION AUTHORIZING THE TRANSFER OF FUNDS OF THE WEST CONCORD SEWERAGE PRECINCT.

Resolved by the City Council of the City of Concord as follows:

That the city treasurer be, and hereby is, authorized to transfer the sum of four hundred dollars (\$400) from the West Concord sewerage precinct sinking fund account to the city treasury, said fund to constitute a part of the amount to be raised for the sinking fund for 1908, which together with one thousand dollars (\$1,000) raised by taxation amounts to one thousand four hundred dollars (\$1,400), the sum required by ordinance.

Passed February 10, 1908.

A JOINT RESOLUTION APPROPRIATING FIVE DOLLARS AND SEVENTEEN CENTS (\$5.17) TO REIMBURSE THE MANCHESTER AND CONCORD EXPRESS COMPANY FOR TAXES ERRONEOUSLY ASSESSED.

Resolved by the City Council of the City of Concord as follows:

That the sum of five dollars and seventeen cents (\$5.17) be, and the same hereby is, appropriated to reimburse the Manchester and Concord Express Company for taxes paid by it to the city of Concord for the year 1907, said assessment having been illegal by reason of an act of the legislature approved March 26, 1907, entitled, "An act to provide for the taxation of express companies." The amount hereby appropriated shall be charged to the account of incidentals and land damages.

Passed April 13, 1908.

A JOINT RESOLUTION APPROPRIATING EIGHT DOLLARS (\$S) TO RE-IMBURSE MRS. NELLIE BICKFORD OF WARD THREE, FOR TAXES PAID BY MISTAKE.

Resolved by the City Council of the City of Concord as follows:

That the sum of eight dollars (\$8) be, and hereby is appropriated to reimburse Mrs. Nellie Bickford of Ward 3, Concord, for taxes paid by her to the city of Concord for the year 1907, the same having been erroneously assessed. The amount hereby appropriated shall be charged to the account of incidentals and land damages. Passed April 13, 1908.

A JOINT RESOLUTION APPROPRIATING FIVE HUNDRED DOLLARS FOR THE PURCHASE OF HOSE FOR THE FIRE DEPARTMENT.

Resolved by the City Council of the City of Concord as follows:

That the sum of five hundred dollars (\$500) be, and is, appropriated out of any money in the treasury not otherwise appropriated for the purchase of five hundred feet of Paragon hose for the fire department. This sum shall be charged to the expenses of the fire department.

Passed April 13, 1908.

A Joint Resolution appropriating three hundred dollars (\$300) for the purchase of a horse for the fire department.

Resolved by the City Council of the City of Concord as follows:

That the sum of three hundred dollars (\$300) be, and is hereby, appropriated out of any money in the treasury not otherwise appropriated for the purchase of a horse for the fire department. This sum shall be charged to the expenses of the fire department.

Passed April 13, 1908.

A JOINT RESOLUTION IN RELATION TO COAL, WOOD AND ICE.

Resolved by the City Council of the City of Concord as follows:

That the committee on finance be, and hereby are, directed to ask for bids for supplying the city with coal, wood and ice for the ensuing year, and that said committee have full power to accept or reject any bids offered.

Passed April 13, 1908.

A Joint Resolution appropriating the sum of two hundred and fifty dollars (\$250) for the purchase of an adding machine for the use of the city,

Resolved by the City Council of the City of Concord as follows: That the sum of two hundred and fifty dollars (\$250) be, and hereby is, appropriated from the account of incidentals and land damages, which, together with one hundred and twenty-five dollars (\$125) to be paid by the Concord water-works shall be expended for the purchase of a Burroughs adding machine for the use of the city.

Passed April 13, 1908.

A JOINT RESOLUTION AUTHORIZING THE ISSUANCE OF BONDS TO THE AMOUNT OF TWENTY-FIVE THOUSAND DOLLARS TO RAISE MONEY FOR THE PURPOSE OF DEFRAYING THE EXPENSE OF SEWER CONSTRUCTION IN THE SEWER PRECINCT OF THE CITY.

Resolved by the City Council of the City of Concord as follows:

SECTION 1. That the treasurer of the city of Concord is hereby authorized to procure by loan on the credit of the city the snm of

twenty-five thousand dollars for the purpose of defraying the expense of sewer construction in the sewer precinct of the city.

Sect. 2. Bonds of the city of Concord shall be issued for said loan, signed by the mayor and countersigned by the city treasurer, and scaled with the scal of the city, and said bonds shall in all respects comply with the provisions of the "municipal bonds act, 1895." Said bonds shall be payable to the bearer and shall be dated May 1, 1908, and be numbered from one to twenty-five inclusive, and shall be for the sum of one thousand dollars cach, and shall be due and payable on the first day of May, 1928.

Said bonds shall have coupons attached for the semi-annual interest thereon, payable on the first days of May and November in each year during the term the bonds run at a rate not exceeding three and one-half per cent. per annum. Said bonds shall be signed by the treasurer of the city either in the original or facsimile.

Interest on said bonds shall be paid at the office of the treasurer of the city of Concord or at the First National Bank of Boston, Boston, Mass., on the first days of May and November in each year, during the terms of said bonds, upon presentation of the interest coupons, and the bonds shall be paid at the office of the treasurer of the city of Concord or at the First National Bank of Boston, Boston, Mass., upon presentation at maturity.

SECT. 3. The city treasurer is hereby authorized to procure proposals for the sale of the bonds hereby authorized and such bids as seem for the best interest of the city shall be accepted by him provided the same are approved by the finance committee.

SECT. 4. All of said bonds owned by citizens of said Concord shall be exempt from taxation.

Passed April 13, 1908.

A Joint Resolution providing for a discount of taxes.

Resolved by the City Council of the City of Concord as follows:

That a discount of two per cent, shall be allowed on all taxes assessed for the year 1908, paid on or before the fifteenth day of July, 1908.

Passed May 11, 1908.

A JOINT RESOLUTION IN RELATION TO A TEMPORARY LOAN NOT EXCEEDING \$50,000.

Resolved by the City Council of the City of Concord as follows:

That the committee on finance are hereby authorized to borrow on

the credit of the city a sum not to exceed \$50,000, for current expenses in anticipation of taxes for the year 1908, upon such terms and for such amounts as the committee shall determine.

Passed May 11, 1908.

A CONCURRENT RESOLUTION RELATING TO WHITE MOUNTAIN FOREST RESERVATION.

Resolved by the City Council of the City of Concord as follows:

That the constant denudation of the White Mountains is a serious menace to the material welfare of the citizens of Concord; therefore be it resolved by the city council in joint convention that the mayor be authorized to communicate to the speaker of the house of representatives, the Honorable Joseph G. Cannon, our earnest desire that he will so far subserve our interests as to permit favorable and immediate consideration of the affirmative legislation now pending in said house of representatives.

Passed May 11, 1908.

A Joint Resolution in relation to the payment of five thousand dollars (\$5,000) police station bonds.

Resolved by the City Council of the City of Concord as follows:

That the sum of five thousand dollars (\$5,000) be, and the same is hereby, appropriated out of any money in the treasury not otherwise appropriated for the payment of five thousand dollars (\$5,000) police station bonds of the city of Concord, due and maturing on the first day of July, 1908.

Passed June 8, 1908.

A JOINT RESOLUTION APPROPRIATING THIRTY-TWO HUNDRED NINETY-EIGHT AND ELEVEN ONE-HUNDREDTHS DOLLARS (\$3,298.11) TO PAY FOR THE REAL ESTATE SOLD TO THE CITY OF CONCORD FOR UNPAID TAXES FOR THE YEAR 1907.

Resolved by the City Council of the City of Concord as follows:

That the sum of thirty-two hundred ninety-eight and eleven onehundredths dollars (\$3,298.11) be, and the same hereby is, appropriated out of any money in the treasury not otherwise appropriated, to pay the amount due the city of Concord for real estate purchased at the tax collector's sale of real estate for the unpaid taxes for the year 1907.

Passed June 8, 1908.

A JOINT RESOLUTION APPROPRIATING \$500, OR AS MUCH THEREOF AS MAY BE NECESSARY TO CONTINUE THE WORK ON THE SO-CALLED ASSESSORS' MAP OF THE CITY OF CONCORD.

Resolved by the City Council of the City of Concord as follows:

That the sum of five hundred dollars (\$500), or as much thereof as may be necessary, be and the same is hereby appropriated from money in the treasury not otherwise appropriated, to continue the work on the "so-called" assessors' map of the city of Concord; the money to be expended under the direction of the city engineer.

Passed June 8, 1908.

A JOINT RESOLUTION IN REGARD TO FILLING THE DEPRESSION BETWEEN HIGH, FORREST, VALLEY AND CHESTNUT STREETS.

Resolved by the City Council of the City of Concord as follows:

That the highway commissioner be, and hereby is, instructed to fill
up the depression now existing between High, Forrest, Valley and
Chestnut Streets, using for said purpose the clean refuse matter,
such as ashes, dirt, and the like, collected in the garbage precinct.
Passed June 8, 1908.

A JOINT RESOLUTION AUTHORIZING THE MAYOR AND CITY SOLICITOR TO LEASE CERTAIN LAND TO THE STATE OF NEW HAMPSHIRE.

Resolved by the City Council of the City of Concord as follows:

That the mayor and the city solicitor be, and hereby are, authorized to lease to the state of New Hampshire for the term of fortynine years, a certain tract of land on the north side of Ford's Avenue and west of the Auditorium, said piece of land being about forty-three feet north and south, and about seventy feet east and west, for the rent of one dollar during the whole of said term. The land so leased is to be used by the state for an armory, and if the state ceases to use said land for said purpose during said term, said

lease shall terminate and the land shall revert to the city of Concord.

Passed June 8, 1908.

A JOINT RESOLUTION APPROPRIATING A SUM NOT TO EXCEED \$400, FOR THE CONSTRUCTION OF A BAND STAND IN COURT HOUSE PARK.

Resolved by the City Council of the City of Concord as follows:

That a sum not to exceed four hundred dollars (\$400) be, and the same is hereby, appropriated out of money not otherwise appropriated for the construction of a band stand in court house park, the sum so appropriated to be expended by the committee on lands and build-

ings.
Passed June 8, 1908.

A JOINT RESOLUTION IN RELATION TO BAND CONCERTS FOR 1908.

Resolved by the City Council of the City of Concord as follows:

That the mayor is hereby authorized to contract with Arthur F.

Nevers, in the sum of three hundred dollars (\$300), for band concerts during the summer season of 1908.

Passed June 8, 1908.

A JOINT RESOLUTION APPROPRIATING THE SUM OF FORTY DOLLARS TO PURCHASE A GONG TO BE PLACED IN C. M. & A. W. ROLFE'S BOILER HOUSE FOR FIRE PURPOSES.

Resolved by the City Council of the City of Concord as follows: That the sum of forty dollars (\$40) be, and the same is hereby, appropriated out of any money in the treasury not otherwise appropriated to purchase a gong to be installed in the boiler house of C. M. & A. W. Rolfe, Ward 1, for fire purposes.

Passed July 13, 1908.

A JOINT RESOLUTION APPROPRIATING EIGHTY DOLLARS TO PURCHASE FOUR PONY CHEMICALS FOR THE PLAINS DISTRICT.

Resolved by the City Council of the City of Concord as follows:

That the sum of eighty dollars (\$80) be, and is hereby, appropriated out of the appropriation for incidentals and land damages, for the purchase of four pony chemicals for the Plains district.

Passed July 13, 1908.

A JOINT RESOLUTION APPROPRIATING THE SUM OF \$50 FOR INSTALLING GARBAGE CANS ON THE STREETS OF THE CITY OF CONCORD.

Resolved by the City Council of the City of Concord as follows:

That the sum of \$50 be, and the same is hereby, appropriated for the purchase and installation of garbage cans on the streets of the city of Concord. This to be done under the direction of the commissioner of highways and to be charged to the account of incidentals and land damages.

Passed July 13, 1908.

A JOINT RESOLUTION APPROPRIATING THE SUM OF EIGHT HUNDRED DOL-LARS (\$800) FOR PRINTING AND STATIONERY.

Resolved by the City Council of the City of Concord as follows:

That the sum of eight hundred dollars (\$800) be, and the same is hereby, appropriated out of any money in the treasury not otherwise appropriated, for printing and stationery.

Passed August 10, 1908.

A JOINT RESOLUTION APPROPRIATING THE SUM OF EIGHT HUNDRED DOL-LARS (\$800) FOR THE SUPPORT OF CITY POOR.

Resolved by the City Council of the City of Concord as follows:

That the sum of eight hundred dollars (\$800) be, and the same is hereby, appropriated out of any money in the treasury not otherwise appropriated, for the support of city poor.

Passed August 10, 1908.

A JOINT RESOLUTION MAKING ADDITIONAL APPROPRIATION TO THE ACCOUNT OF HEALTH DEPARTMENT.

Resolved by the City Council of the City of Concord as follows:

That six hundred dollars (\$600) be, and the same is hereby, appropriated out of any money in the treasury not otherwise appropriated, and credited to the incidental account of health department. Passed August 10, 1908.

A JOINT RESOLUTION APPROPRIATING MONEY FOR PERMANENT IMPROVE-MENTS ON NORTH MAIN STREET.

Resolved by the City Council of the City of Concord as follows:

That the sum of thirty-two hundred dollars (\$3,200) be, and hereby is, appropriated from any money in the treasury not otherwise appropriated for the purpose of concreting North Main Street between Pleasant Street and Warren Street, and between Eagle Hotel and Park Street. The money above appropriated to be expended under the direction of the commissioner of highways.

Passed August 10, 1908.

A JOINT RESOLUTION APPROPRIATING TWO DOLLARS AND FORTY-SEVEN CENTS (\$2.47) TO REIMBURSE MRS, FRANK E. WHIDDEN FOR TAXES ERRONEOUSLY ASSESSED.

Resolved by the City Council of the City of Concord as follows:

That the sum of two dollars and forty-seven cents (\$2.47) be, and the same is hereby, appropriated to reimburse Mrs. Frank E. Whidden for taxes paid by her to the city of Concord for the year 1907, the same having been erroneously assessed. The amount hereby appropriated shall be charged to the account of incidentals and land damages.

Passed Angust 10, 1908.

A JOINT RESOLUTION PROVIDING FOR THE APPOINTMENT OF A COM-MITTEE TO CONSIDER THE CLAIMS OF L. A. ENGEL AND OTHERS FOR DAMAGES ON ACCOUNT OF A CHANGE OF GRADE IN NORTH STATE STREET.

Resolved by the City Council of the City of Concord as follows:

That a committee, consisting of two aldermen to be named by the mayor and two councilmen to be named by the president of the common council, be appointed to confer with John M. Mitchell, counsel for the Boston & Maine Railroad, and the city solicitor with reference to the adjustment of the claims of L. A. Engel and others arising from a change in grade on North State street, and to recommend to the city council what action the city should take with reference to the adjustment of said claims.

Passed August 10, 1908.

A JOINT RESOLUTION APPROPRIATING THE SUM OF FOUR THOUSAND DOLLARS (\$4,000) FOR INCIDENTALS AND LAND DAMAGES.

Resolved by the City Council of the City of Concord as follows:

That the sum of four thousand dollars (\$4,000) be, and the same is hereby, appropriated out of any money in the treasury not otherwise appropriated, for incidentals and land damages.

Passed October 12, 1908.

A JOINT RESOLUTION APPROPRIATING THE SUM OF FOUR HUNDRED DOL-LARS TOWARD THE SETTLEMENT OF THE CLAIMS OF LEWIS A. ENGEL AND OTHERS FOR DAMAGES ON ACCOUNT OF CHANGE IN GRADE ON NORTH STATE STREET.

Resolved by the City Council of the City of Concord as follows:

That the sum of four hundred dollars be, and hereby is, appropriated to be paid to the Boston & Maine Railroad when the said railroad shall have procured from Lewis A. Engel, George W. Kemp, Phæbe J. Rowe and James W. Welch, full discharges and releases of the city and the Boston & Maine Railroad from all liability on account of any and all changes of grade on North State Street.

Passed November 9, 1908.

A CONCURRENT RESOLUTION IN AID OF THE SUFFERERS IN SOUTHERN ITALY AND SICILY.

That the recent calamity overwhelming Southern Italy and Sicily and involving an unprecedented loss of life and property, calls not only for our full sorrow and sympathy but for our quick aid and succour, therefore, be it Resolved, That in the name of American charity and well doing the city council call upon all our citizens to contribute something in this awful hour of death and suffering either in money or clothes, or both, and that the end sought may be more effectually hastened we ask the co-operation of our religious denominations, of our fraternal and social organizations and of our school children.

Passed December 30, 1908.

A JOINT RESOLUTION APPROPRIATING MONEY FOR DEFICIENCIES IN THE SEVERAL DEPARTMENTS.

Resolved by the City Council of the City of Concord as follows:

REPORT OF THE BOARD OF EDUCATION OF UNION SCHOOL DISTRICT, FOR YEAR ENDING MARCH 31, 1909.

To the Inhabitants of Union School District:

The annual report of the Board of Education for the school year closing March 31, 1909, is respectfully submitted.

In our efforts to hold our schools to the high standard of former years, and to make such advancement as was possible, we feel that we have had the hearty support of all interested,—superintendent, teachers, scholars, parents and citizens generally. Such improvements in buildings and equipment as were possible under the usual appropriations have been made, and deterioration of the property in our charge has been prevented to the best of our ability. The misfortune attendant upon the partial destruction by fire of the Franklin-street schoolhouse tested the efficiency of our school organization, but the regular routine of work was scarcely disturbed and it is a pleasure to be able to report that no loss to the children of opportunity to pursue their studies under favorable conditions, or to the district in a pecuniary sense, resulted. The insurance received was more than sufficient to completely repair the building and to improve it by the substitution of slate blackboards and the addition of a substantial iron fire-escape. Of the insurance received, a balance of \$571.04 remains unexpended.

So far as our schools in general are concerned, we are confident that little is now lacking in buildings, equipment, supervision, or sufficiency and efficiency of the teaching force. We would make an exception, however, concerning the High school. Notwithstanding its efficiency, certain needs are apparent.

In a school of its size, which is increasing steadily from year to year, a much closer supervision by the principal than is now possible with the present teaching staff is absolutely demanded. This, together with the large amount of clerical work devolving upon the principal, should engage his entire attention and relieve him of the personal care of classes. Hence, in order to approach the maximum in point of discipline and efficient instruction, another male assistant should be added to the teaching force, that the increased demands for the coming year may be properly met.

In only two respects have radical departures been made from the former general policy of the board. During the year a new schedule of pay for teachers has been adopted. The minimum salary of all teachers is now \$300 a year, with \$550 as the maximum in the grades below the Parker school and above the kindergarten. The increase from minimum to maximum takes place automatically and all teachers now stand and fare alike as regards salaries. The new schedule assures living wages to the beginners and a maximum salary to the experienced teachers which is larger than that paid by most cities of our size. The purpose of the change was to establish a definite system of compensation and to make continuance in the service of the district wholly a matter of competency. A year's experience seems fully to have justified expectations in these regards.

Some years ago, during an epidemic of scarlet fever, the local Board of Health with the hearty co-operation of the Board of Education, conducted for a short time a daily inspection of all the scholars in the district and thereby undoubtedly limited the spread of the disease without interfering with the continuance of the schools. This was probably the inauguration of medical inspection of public schools in New Hampshire. Although the results demonstrated its value as a fixture in the routine of school life, nothing further along those lines, save a few spasmodic

efforts during the prevalence of some contagious disease, has been attempted until this year, when the very generous offer of the local District Nursing Association, to give the services of their head nurse for a period of three months to make a systematic examination of the children, 'was gratefully accepted by our board. The nurse is now actively engaged in the work, which is proving beyond question the necessity of a closer oversight of the physical condition of that large body of children under our care. In the early, tender years are laid the foundations for the future, and it becomes us to see to it that through no fault of ours are the opportunities of youth lost. It is essentially our duty to provide spacious rooms, well lighted and properly ventilated: it is equally our duty to protect the child as far as possible against all tendencies, inherited or acquired, that may undermine his physical and mental resources. Defective vision or impaired hearing alone may sadly interfere with his progress at study and stamp him as one below the average in ability: remove the disability by appropriate treatment and he may assert himself a leader. Many of the defects of childhood are easily detected and the proper remedies as easily suggested. There is an urgent demand at the present time for an intelligent supervision of the children in the schoolroom that a sound mind and a sound body may be the lot of all.

Respectfully submitted,

EDWARD N. PEARSON,
GEORGE H. MOSES,

Auditor.

REPORT OF THE SUPERINTENDENT.

To the Board of Education of Union School District:

LADIES AND GENTLEMEN: The following report deals briefly with matters which have transpired during the last year and with suggestions calculated to make the public schools more efficient.

ATTENDANCE.

	1907.	1908.	Increase.	Decrease
Number of pupils in the public schools	2,877	2,856		21
" parochial schools		697	81	
" private schools	32	38	6

" grammar schools	1,000	951		49
" primary schools	1,298	1,290		8
" kindergartens	229	235	6	
Totals	2,877	2,848	28	57
Net decrease				29
NIGHT SCHO	OOL.			
Number of pupils enrolled (males)	158	93		65
" (females)		11		31
, , , , , , , , , , , , , , , , , , , ,			<u>.</u>	_
Totals		104		96
Net decrease				96

A comparison of the total enrollments for the past five years shows an average annual decrease of about six pupils, most noticeable in the lowest grades and due principally to new parochial schools and to loss of population on account of business depression.

West Concord, East Concord, and the Plains have shown losses as well as the northern part of the district proper, the last being ascribed to the establishment of parochial schools in that section. One room was discontinued in the

Walker building and one in the Harriet P. Dame building at the beginning of the fall term, and from present indications another room will be dispensed with in the northern section during the coming year.

No additional building construction need be thought of at present and none will be required soon unless conditions rapidly change.

In the high school the enrollment is steadily increasing, the maximum of four hundred and fifty-seven in the fall term being the largest number of pupils ever recorded in its history. It is quite interesting to note the result of the estimate which was asked of me and submitted to the building committee in 1905.

From the following tabulated comparison it may be seen that the estimate was a little too high, but inasmuch as during that period the Holden mills have been removed entirely from West Concord, the shoc factory burned, and the country disturbed by business depression, it was quite close.

	Estimate	Actual
Year.	of 1905.	Attendance.
1905	328	322
1906	358	340
1907	437	350
1908	477	450

There are two hundred five pupils enrolled in the graduating classes of the grammar schools. Allowing seventy per cent. of these to enter the High school next fall, it is safe to say that with the usual additions, the freshman class will contain one hundred sixty members, which signifies an enrollment of nearly if not quite five hundred in the High school. Very likely this will be the most serious problem of school attendance next year.

In the Parker school an increase of twenty pupils over the attendance of 1907 is shown. The Franklin school building was burned on the night of November 16, 1908. The pupils left without accommodations were housed as follows: The largest number were assigned to the Walker school, where an unused room was called into requisition. The others were sent to the following buildings: Tahanto, Merrimack, Dewey, Kimball.

High School.

The teaching force of this school remains the same as last year with two exceptions. Miss Bentley, who had a powerful influence in raising the standard of the school in work and in the uplift of student character, was called to a more desirable position in Boston and Miss Margaret L. Burns was chosen to fill the vacancy. The number of pupils having increased, Miss Helen A. Drake was selected as an additional teacher. Fifty-four students graduated last June, thirteen entering college and six, professional schools. Two more intend entering college next fall. The large attendance has tested the seating capacity of the building and the inevitable increase of next year must be met by expedients in utilizing the different laboratories and the lecture-room for additional seating space, thus causing considerable extra expense in the purchase of new desks.

But little change has been made in the course of study, the most important being the introduction of Political Economy, and Banking and Finance into the Commercial Course.

It was found that the two periods a week electives in drawing, sewing, cooking, wood and iron work, would have to be made entirely outside of the regular school time. It has been impossible on this account for many who wished to take these subjects to do so because they could not make the five periods a week in other subjects. I suggest that military drill be made optional, thereby allowing a just proportion of school time to the pupils of the Mechanic Arts course and others who wish to take manual training.

One hundred seventeen additional books have been purchased for the library. If there could be an annual expenditure for this purpose, in a few years the library would be fully equipped. The art exhibit by the Horace K. Turner Co., last spring, netted the school about sixty dollars which, with five dollars from the prize speaking fund, was expended for framed pictures, thereby lessening the barren appearance of the interior of the building to some extent, but much remains to be done. Some large pieces of statuary are needed for the corridors. This is a matter of no small importance because the effect of works of art in every form becomes apparent in the elevation, culture and refinement of the pupils.

The increased size of the school makes administration correspondingly difficult. The demands made upon the principal's executive strength multiply year by year with the growing numbers and are too little appreciated and understood by those not conversant with the conditions. Problems in discipline, upon which the success of any school largely depends, arise and cannot be solved as well as they could be if the principal's time were not taken up by so many recitation periods.

Whatever advantage may accrue from personal contact with the pupils in the recitation room will be more than offset by a more careful attention to problems of administration.

Training School.

There are six student teachers in the training school, five of whom graduate next June. The entering class of next fall promises to be quite large. In view of the fact that the present training course is of two years' duration, a certificate of graduation from the first two courses in our High school ought to be regarded as a sufficiently high requirement for admission to the training classes and the present requirement of an average of seventy-five per cent. for four years should be discontinued. The standard of the school is high enough so that the graduates find little difficulty in securing employment. Two of the last graduating class are now teaching in this district.

In response to a popular demand for forenoon sessions in the kindergarten, it was found necessary to consolidate four rooms into three and adopt a departmental plan of teaching in the six highest classes. This has met with some success but it has its serious disadvantages and ought to be the subject of much more careful consideration before being adopted as a fixed plan. The work of the school was well shown on the Parents' Day in the winter term.

PARKER SCHOOL.

The Parker school has repeated its success of last year. The increased attendance caused the employment of an additional teacher so that the teaching force now numbers six. The usual Parents' Night was observed on the last night of the fall term. The first half was devoted to regular recitations in the various branches, including an exposition of the work in drawing, cooking, sewing and wood-work. The last half was given to music, calisthenics and the dramatization of Dicken's Christmas Carol, the characters being taken by the pupils of the school. The affair was an unqualified success and a very large number of citizens were present.

On September 28, 1908, the school was presented with a Lincoln Memorial tablet by Mary M. Shute, in memory of her husband, Lieut. Charles Henry Shute; and a photogravure of Lincoln, by Anna Eliza Andrews and Isaac Bruce Shute, in memory of Lieut. George Moses Shute. Both these officers were members of Company B, of the Second Regiment of New Hampshire Infantry.

This was made a public event, the local Post of the Grand

Army of the Republic being present in a body and many others attending. The programme may be found in the appendix to this report.

The conduct of this school is based upon strict application to school duties, to the minimizing of outside attractions as a menace to the pupil's best interests, and a wholesome discipline, all as vital elements of success in school work. The characteristics of the pupil are carefully noted and he is taught as an individual as far and as carefully as conditions allow. The parents are kept informed of their children's progress by frequent written reports and by personal consultations with the teachers. The attainments of those pupils who apply themselves faithfully to their work are positive and gratifying, the course of study is modern in its formation and application, and between eighty and ninety per cent. graduate well fitted for the succeeding High school requirements.

MANUAL TRAINING.

WOOD AND IRON,

The facilities for manual training have been increased by the addition of new benches, a shaper, two new forges and the employment of an additional instructor. This has enabled us to double the amount of work done by the grammar classes heretofore, and also allowed the introduction of a course in forging. The Mechanic Arts course has now both a freshman and a sophomore class taking the full number of hours required. Wood-work has been modified slightly by dropping whittling and by changing certain unsatisfactory models for more useful and attractive ones. There has been co-operation between this department and that of drawing in the matter of applied design and the intention of the instructors to more closely connect the two departments is a worthy one. In the High school the freshman

class has model work suited to previous training, the sophomore class has wood-turning, pattern-making, and forging based upon the course in the Massachusetts Institute of Technology, and the junior and senior classes take machineshop practice. In freehand drawing the class M work has been given up. The freshman and sophomore classes have the same course as last year. The junior and senior classes have additional problems in architecture.

Probably no more comprehensive course in manual training exists in the state than the one here. Mr. Carroll has labored and is constantly laboring to make it equal to the best as far as conditions will allow. The teaching force is capable, the equipment very liberal and quite sufficient. To maintain these two essential features has raised the cost of the school to a large annual expenditure. The serious question now is how to decrease the expense and not impair the efficiency of the school.

SEWING AND COOKING.

The courses in sewing and cooking have remained unchanged. On account of the jar of the machinery and the need of room, these schools were removed from the Morrill Manual Training school and located in the Chandler and Parker school buildings, respectively. They have been granted necessities in the matter of equipment, which have long been their due.

NIGHT SCHOOL.

This school was successful notwithstanding the attendance was only about half as large as that of the previous year. The students were interested and the progress was much more noticeable than in the larger school of 1907. The majority were of foreign birth and confined their efforts to reading, writing and spelling. Each successive year there is some demand for advanced studies, but the number of

applicants is not sufficiently large to warrant starting the classes. The school this winter will be somewhat larger than that of last year in enrollment, but the average attendance on account of bad weather will not be quite so well sustained.

Vague Memo,
Ricco Peano,

Jim Niche, Mathu Peter, Costa Demeter, Louis Marti, Viscel Peter.

KINDERGARTENS.

With the change at the Dewey school, all the kinder-gartens now have forenoon sessions. No new ones have been established during the year, but the standard of work has been strengthened. The supervisor and the regular teachers have used their best endeavors to keep abreast of the times in faithful attention to duty both in teachers' meetings and in the class room. It is worthy of note that many business men have been present on public days and that the hand-work has called forth words of praise from supervisors in other cities. The accomplishments of the kindergartens are thoroughly appreciated by the primary teachers and the equipment is all that can be desired. The attendance has shown a slight increase.

Drawing.

At the end of the spring term Miss Grace L. Bell, for many years instructor in drawing, resigned her position to take a more lucrative one in the High school at Springfield, Mass. The efforts of Miss Bell will be remembered here for a long time on account of the steady progress maintained year by year and the favor with which the results of her school work were received by experts. Her successor, Miss Faith C. Stalker, of Worcester, Mass., is giving conscientious service. An improvement is noticeable in the strictly manual work of the lower grades, in applied design, and in the reed and raffia work. The new course in the High school contemplates advanced drawing from models and from life, as well as still life in water color.

MILITARY DRILL.

In the fall Colonel Mason resigned his position as instructor, and at the beginning of the winter term Lieut. S. E. Hall was chosen to fill the vacancy. During the year the cadets have taken part in the annual Field Day, a local competitive drill, and the Interscholastic Championship Drill at Boston. Lieutenant Hall reports a renewal of interest.

Music.

Music is in the hands of a capable instructor and a willing corps of teachers. There has been little change of method and the pupils are singing more and a better class of music than ever before. A girls' glee club of no mean ability has been formed in the Parker school and the regular work of some of the elementary schools from the viewpoints of tone production and sight reading is to be highly commended. Thirty-five minutes a week have been allotted music in the High school. Taking into account that the chorus numbers two hundred and twenty-five voices it is remarkable that in this small time so much has been accomplished. The usual glee club organizations have been maintained and on Thursday afternoons informal musicales have been given in connection with outside talent. The annual concert given by the High school chorus was highly remunerative and a goodly sum is now on deposit for future needs.

Deficient Pupils.

From records at hand we find that eighty per cent. of the pupils in the elementary schools receive promotion twice a year even though the mid-year promotions are very strict. The remaining twenty per cent. fail for various reasons, some of which follow:

- 1. Lack of personal interest and effort, almost always the result of faulty home training.
 - Time lost on account of sickness.
 - 3. Too young for the grade.
 - 4. Forced to remain in school against their will.

- 5. Attention taken from school work by outside attractions.
 - 6. Mentally deficient.

Recent investigations by the teachers have revealed the following conditions in the elementary schools:

- 1. The number of pupils so deficient mentally that they would better be in some institution specially adapted for such pupils, nine.
- 2. Pupils not included under No. 1, who are so much below normal in mental capacity as to be unable to make much progress and are a hindrance to the rest of the class, sixty-three.
- 3. Pupils four or more years behind in their school work, thirty-five.
- 4. Pupils two or more years behind in their school work (includes 1, 2, 3), two hundred forty-two.

For pupils classed under No. 2 a special school would be a natural suggestion, but on closer analysis of the report we find that the segregation of these pupils presents a problem of considerable complexity. Thirteen live in the outlying districts. The others live all the way from Call Street to Rockingham Street, so that the location of such a school would be difficult. Every grade is represented from A to M, making an average of about four pupils to a class. There are only enough pupils for one room, but one room containing any great number of grades would fail of accomplishing desired results. Some of the reasons why many are from two to four years below grade are:

- 1. There are many foreigners who know nothing of our language and are consequently slow in beginning.
- 2. Others, native born, come from homes where no English is spoken and their progress is correspondingly slow.
- 3. Many come from rural districts where the advantages are limited, and they are far below grade when they enter.

 Some being unable to maintain a standing in the parochial school come back to the public schools and fail of doing the work.

It is very likely that the ratio of such pupils to the total number enrolled is about the same as it has been for a number of years, the increase if any being due to the first reason named.

SCHOOL HYGIENE

The recent appointment of a committee on hygiene to look after the health conditions in the schools is one of the greatest importance and will be far reaching in its effects. Through the generosity of the District Nursing Association the schools are having the services of the district nurse for three months free of expense. Miss Moore's report for one month, ending February 1, is substantially as follows:

"I was surprised to find the number of children who neglected the daily care of the teeth. The heads of all the children examined were found to be clean.

Whole number of pupils examined,	192
Number found with enlarged tonsils,	66
Number found with symptoms of adenoids,	28
Number found with poor teeth,	25
Number found with defective hearing,	20
Number found who were in poor physical	
condition.	29"

I suggest that the matter of doing away with the common drinking cup be given immediate consideration.

THE ELEMENTARY SCHOOLS.

The amount and character of the work done in the elementary schools has not a little to do with the general uplift of the public school system. For the past year this has been accomplished in a quiet but none the less effective way, reflecting credit upon the teachers and the pupils alike. Especially true has this been of the so-called essentials as revealed to me by over six hundred official visits, frequent tests, and careful comparisons of written results. The quality not the quantity of the work counts most and largely upon this the efficiency of any school system must depend. Within the year the work has been commended by persons high in educational authority and the records of pupils who have left the city and entered other schools offers a convincing argument that elementary school work here suffers little by comparison with that of other places.

The teachers have been earnest in their efforts, manifesting a desire for professional progress that promises well for the future. At a general meeting in the fall the suggestion that the teachers of each building form clubs for the purpose of studying pedagogical works was quite generally adopted and is sure to render great service to the schools.

Parents' Days have been frequent, the attendance large and many have come at these times who would not otherwise have done so. The Rules and Regulations provide that each teacher may take three half-days each year for the purpose of visiting other schools. Many have availed themselves of the privilege, but others have not. I can suggest nothing better for a teacher than that she visit and become acquainted with methods and ways in other places.

On December 4, 1908, the fiftieth anniversary of the erection of the Merrimack school building was observed with appropriate exercises. This was brought about by the forethought of Miss Kimball, principal, and the other teachers of the school. Intended only as a simple affair, the interest grew so that the alumni assembled in large

numbers to renew old acquaintance and live over again the days of yore.

A trial is now being made of the Palmer system of penmanship in class L. At present penmanship in the lower grades lacks uniformity and is far from satisfactory. From the use of one system only uniformity, at least, can be restored.

I again recommend that the forty-minute test rule be abolished as far as it applies to classes L and M, and that one hour be allowed the pupils of these grades as a more reasonable time to write their tests with sufficient thought and care and for relieving an intense strain on the nervous system.

The usual appropriation for the prize speaking fund was applied as follows: Two casts—a Della Robbia and a Bambino—and two group pictures for the Franklin lowest primary school, two pictures for the high school, and a small amount given toward a picture for the Parker school.

Keeping after school, obnoxious especially when not used with the best of judgment, has been the subject of much thought this year. The most successful teachers use it on only rare occasions-many not at all. It has to be demonstrated that it is educational economy to attempt to force something into the brain of the child whose whole attitude is repulsive and not receptive. A plan was suggested by which the parent was called into partial responsibility for his child's progress. Two afternoons were set aside each week on which pupils could come for additional help after school. A slip was sent to the parent notifying him of his child's deficiency and offering assistance if he would see that the pupil came on the afternoons designated. This has worked well in schools where it has been tried and relieves the teacher of a part of the responsibility for promotion which she ought not to assume.

The general work of the schools has shown sure signs of

growing strength. Public criticism is offered each year and on looking over records for the past forty years I judge that it is of about the character and extent that it was in times gone by. I regard public criticism as a healthy sign and I sincerely hope the time may never come when it shall cease, if it is given without animosity, personal prejudice, and in a broad, public-spirited way. I fail to find anybody officially connected with the affairs of this district who does not have the best interests of the schools at heart and who spares any pains in trying to strengthen the teaching of to-day that it may be a firm stepping-stone to future educational progress. With a keen appreciation of the aid given me by the board of education, the teachers and the citizens of this city, I respectfully submit this report.

L. J. RUNDLETT, Superintendent.

STAMP SAVING SYSTEM.

	March 1, 1908, to March 1, 1909.	Total.
Rumford School,	\$276.06	\$1,454.56
Kimball School,	99.35	617.30
Walker School,	40.71	354.59
Penacook School,	85.66	322.74
Dewey School,	94.96	319.96
Franklin School,	50.28	256.44
Garrison School,	10.60	152.41
Harriet P. Dame School,	19.83	104.80
Eastman School,	29.70	71.85
Chandler School,	24.03	60.14
Tahanto School,		33.19
Merrimack School,	7.99	17.60
	\$739.17	\$3,765.58

The receipts show a decrease of one hundred and ninety dollars over those of last year. This can be traced to a number of causes. There is no doubt but that many pupils spend their money for moving picture shows that would otherwise be credited to this system. The results from the Rumford school show what enthusiastic teachers may accomplish.

ANNUAL SCHOOL MEETING WARRANT.

To the Inhabitants of Union School District in Concord qualified to vote in district affairs:

You are hereby notified to meet at the Auditorium, on Prince Street, in said district, on the twenty-sixth day of March, 1908, at 7.30 o'clock in the evening, to act upon the following subjects:

- 1. To choose a moderator for the ensuing year.
- 2. To choose a clerk for the ensuing year.
- 3. To hear and act upon the report of the Board of Education for the past year.
- 4. To choose three members of the Board of Education to hold office for three years, to fill the vacancies arising from the expiration of the term of office of John M. Mitchell, Susan C. Bancroft and Charles R. Corning, and to fill any other vacancies that may occur in said board.
- 5. To choose one or more auditors and all necessary officers for the ensuing year.
- 6. To see what sum of money the district will raise and appropriate for the payment of the debts of the district.
- 7. To see what sum of money the district will raise and appropriate for the support of schools for the ensuing year, including manual training, military drill and night school.
- 8. To see what sum of money the district will raise and appropriate for occasional and extraordinary repairs of school buildings during the ensuing year.
 - 9. To hear the report of the special committee for the

erection and equipment of the new High school, West Concord school and Manual Training school buildings and act thereon.

10. To transact any other business that may legally come before said meeting.

Given under our hands this second day of March, 1908.

CHARLES R. CORNING, President,
JOHN M. MITCHELL,
SUSAN C. BANCROFT,
ALICE M. NIMS,
GEORGE H. MOSES,
ELLA H. J. HILL,
JOHN VANNEVAR,
GEORGE M. KIMBALL,
EDWARD N. PEARSON,

Board of Education of Union School District.

I certify that on the third day of March, 1908, I posted a copy of the written warrant, attested by the Board of Education of said district at the place of meeting within named, and a like attested copy at the police station in the city of Concord, N. H., being a public place in said district.

L. J. RUNDLETT.

Personally appeared the said L. J. Rundlett and made oath that the above certificate by him signed is true.

Before me,

GEORGE W. JOHNSON,

Justice of the Peace.

A true copy of the warrant, return of service and certificate of the oath.

Attest:

LOUIS C. MERRILL, Clerk.

ANNUAL SCHOOL MEETING.

CONCORD, N. H., March 26, 1908.

Agreeable to the foregoing warrant a meeting of the legal voters in Union School District was held at the Auditorium in the city of Concord, N. H., on March 26, 1908, at seven thirty o'clock in the evening.

The meeting was called to order by the Moderator, John B. Abbott, who read the foregoing warrant.

ARTICLE 1. The moderator called for votes for moderator for the ensuing year, and Mr. B. W. Couch moved that the clerk cast one vote for John B. Abbott, and it was so voted.

The clerk cast one vote as directed for John B. Abbott and he having all the votes cast, was declared elected moderator and was sworn by Louis C. Merrill, justice of the peace.

- ART. 2. Mr. John M. Mitchell moved that the moderator cast one vote for Louis C. Merrill as clerk, and it was so voted. The moderator cast the vote and declared Louis C. Merrill elected as clerk and he was duly sworn by John M. Mitchell, justice of the peace.
- ART. 3. Mr. Charles R. Corning moved to accept the report of the Board of Education and Financial Agents as printed and distributed for two weeks previous, and the motion was declared carried.
- ART. 4. Hon. Samuel C. Eastman moved to proceed to ballot for three members of the Board of Education for three years, and that they be voted for on one ticket, and it was so voted.

The moderator then called for votes, and appointed

George D. Waldron, Elwin L. Page and Henry H. Chase as tellers to sort and count the votes.

Mr. W. D. Thompson moved that the polls be closed at eight fifteen o'clock, and it was so voted, at which hour the moderator declared the polls closed and in a few minutes stated the ballot to be:

Whole number of votes cast,	681
Necessary for a choice,	341
John Mitchell had	1
John Kent,	1
William Yeaton,	1
Harry F. Lake,	1
Edmund S. Cook,	1

Dennis E. Sullivan,	616

and Fanny E. Minot, Ebenezer B. Hutchinson and Dennis E. Sullivan were declared elected members of the Board of Education for three years.

ART. 5. Dr. George M. Kimball moved that the clerk cast one vote for Henry H. Metcalf and John P. George as auditors for the ensuing year. Motion carried and the clerk cast the vote as directed. The moderator declared Henry H. Metcalf and John P. George elected auditors.

ART. 6. Hon. Charles R. Corning offered the following resolution and moved its adoption:

Resolved, That there be raised by tax on the polls and ratable estates within Union School District the sum of fifteen thousand one hundred five dollars (\$15,105), of which sum eight thousand dollars (\$8,000) shall be appropriated for the payment of bonds maturing April 1, 1908, and seven thousand one hundred five dollars (\$7,105) for the payment of the interest on its funded debt accruing during the year.

Mr. Corning's motion being seconded, a vote was taken and the resolution declared adopted.

ART. 7. Mr. John M. Mitchell offered the following resolution and moved its adoption:

Resolved, That there shall be raised by tax on the polls and ratable estates within Union School District, for the support of schools for the ensuing year, such a sum as in addition to the sum assigned to the district by the city of Concord out of the appropriation for schools will amount to the sum of seventy four thousand one hundred sixty dollars and forty-three cents (\$74,160.43).

Motion was seconded, a vote taken and the resolution declared adopted.

ART. 8. Mr. B. W. Couch offered the following resolution:

Resolved, That the sum of two thousand five hundred dollars (\$2,500) be raised by taxation upon the polls and ratable estates within Union School District and appropriated for occasional and extraordinary repairs of school buildings, and that the expenditure of such a sum shall be under the direction of the Board of Education.

Mr. Couch moved the adoption of the resolution, and his motion being seconded, a vote was taken and the moderator declared the resolution adopted.

ART. 9. Mr. W. D. Thompson submitted the following resolution and moved its adoption:

Resolved. That the report of the Building Committee for the erection and equipment of the new High School, West Concord School and Manual Training School buildings, and the account of its Treasurer, Charles R. Walker, be, and the same are hereby accepted and approved; and all and singular the actions of said Building Committee and its treasurer are hereby ratified and confirmed; and that the balance of forty-two dollars and twenty-four cents (\$42.24), as shown by said treasurer's account, on account of the construction and equipment of the High School building, and the balance of seventy-six dollars and eighty-five cents (\$76.85), on account of the construction and equipment of the Manual Training School building, as shown by the account of said treasurer, now in his hands, be paid to the financial agent of the district who is authorized and directed to accept the same and receipt therefor.

Motion seconded, a vote taken, and the moderator declared the resolution adopted.

ART. 10. Moved and seconded that the Articles be passed; motion carried.

On motion voted to adjourn.

A true record. Attest:

LOUIS C. MERRILL, Clerk.

REPORT OF THE BOARD OF EDUCATION OF PEN-ACOOK SCHOOL DISTRICT FROM APRIL 1.

1908, TO MARCH 1, 1909.

The Board of Education submits herewith the last report of educational conditions in Penacook School District, together with the report of the superintendent and treasurer.

At the end of the school year in 1908 the supervisory district of Franklin, Penacook and Boscawen was dissolved and the Penacook, Boscawen and Hill District was formed and George W. Sumner was elected superintendent. For the first time in its history, Penacook has a resident superintendent and the consequent increased efficiency of supervision has been apparent in many ways, chief among which is the unification of the Boscawen and Penacook school systems. The unity of the teaching force has been better preserved than ever before and we believe that good work is being done in every department and in every school.

The lengthened period of school life for the great majority of the children is the most notable thing in our educational progress. The High School has the same efficient corps of teachers as last year and began the year with an enrollment of seventy-eight pupils. One hundred per cent, of the grammar graduates took up High School work and an equally good record is expected this year.

Three carbon prints have been added to the collection in the Charles Street building from the proceeds of the school entertainment held during the past year, and it is hoped that the policy of beautifying the interior of all our school buildings will be continued under the new administration.

There has been some criticism of the persistent effort to

maintain universal regular attendance at school during such hours as the law requires. The policy of the board has been to secure the largest possible regular attendance and to reduce as much as possible the tardiness and the number of excuses and other irregularities. The thoroughness, tact and ability of the truant officer deserves especial commendation in this connection. Is it too much to ask that all fair-minded, patriotic citizens and parents of this district should co-operate with us in the effort to build up and maintain a high standard of school attendance?

For several years there has been a steadily growing sentiment that the schools in the village of Penacook should be united under one administration. The first public step toward this condition was taken two years ago when the western part of the village, known as the Borough District, was united with School District No. 20, to form the Penacook School District. The final step was taken during the past year when the Board of Education of Boscawen School District, No. 7, co-operating with this board, agreed upon the terms of union and drew a bill to create the Penacook Union School District which was passed by the legislature and took effect March 1, 1909.

We believe that this is the most important step that Penacook has ever taken in educational matters and that it will prove an ideal condition if the parents will cooperate with the Board of Education to make it a union of spirit and purpose as well as a union in name.

HENRY A. BROWN,
HENRY C. HOLBROOK,
HARRY G. ROLFE,
Board of Education.

SUPERINTENDENT'S REPORT.

Penacook, N. H., February 20, 1909.

To the Board of Education:

The recent action of the legislature makes it safe to assume that, on the first of March, District No. 20 will become one of the parts of the new Penacook Union School District. This report, then, the eighth in the series of superintendent's reports, is also the last.

The occasion would be a fitting one for a somewhat detailed report concerning the progress of the schools since the establishment of the district, but time is lacking for such an undertaking now. A report addressed to a part, only, of the district that is to carry forward the work of the schools is not the place for recommendations or a discussion of policies for the future. This report, therefore, will be very brief.

I believe, however, that it would be of great interest to the members of the larger body politic about to be organized, to know something of the history of its two constituent parts. A recent perusal of the reports of the two districts has made me strongly suspect that there are local school traditions which we cannot afford to allow to be forgotten. The two school systems in the village of Penacook have not attained their present standard of excellence without self-sacrificing effort and a high, if commonplace, type of every-day heroism on the part of many teachers, board members and others, whom it would be well for this and the coming generation to remember. Permit me to recommend that, at an early date, a report be prepared addressed to the citizens of Penacook Union School District, containing an outline of the policy had in mind by the new board of education and citing the main points of interest in the history of District No. 7 and District No. 20. Such a report would be of especial value if the history could be presented in part from the biographical standpoint and in a style appealing to youth. Young America can hardly be said to value overmuch its legacy from the past. Is it too much to hope that a knowledge of how much the present school system has cost, might lead some boy or girl to value to-day's privileges more and use them to better purpose?

Seven of last year's teachers have been retained and four new teachers employed this year. Each of the new teachers had carefully prepared for the work of teaching, either in normal school, training school or college, and had taught a year or more. It has seemed to me that every employee of the district, including teachers, supervisor of music and truant officer, has been doing painstaking, faithful work. Such a spirit as the teachers manifest, when complemented by a careful organization, cannot fail to secure the results for which you are looking. Thus far it has seemed impossible to arrange for teachers' meetings. The articulation of the system has been somewhat less perfect because this opportunity for free interchange of ideas has been lacking.

In purchasing text-books and supplies, an honest attempt has been made to remember the needs of the grades while providing a considerable quantity of new books, which were absolutely necessary, for the high school.

The continued growth of the high school is most gratifying. The arrangement of the courses is such that the employment of a fourth teacher cannot be longer delayed without narrowing its field of work or lessening its efficiency.

Respectfully,
GEORGE W. SUMNER,
Superintendent.

TOWN SCHOOL DISTRICT OF CONCORD.

SUPERINTENDENT'S REPORT, 1908-1909.

To the School Board of Concord Town District:

I herewith submit my second annual report as superintendent of schools of the Town District of Concord.

The moving principle of all school work must be the preparation of our boys and girls for citizenship. The teaching of the various subjects of the school curriculum is for the purpose of giving a mental equipment that will enable a boy or girl to grasp life's problems with vigorous honesty and courage.

This thought I have kept constantly before my own mind, and have striven to keep it always before the minds of the teachers. With this object in view there is the absolute necessity for the honest performance of each day's tasks and duties. The acceptance of slovenly, or half-done work will quickly establish a habit that will prove a serious handicap to a child through life. Between teacher and pupil there must be entire honesty, frankness and fair-dealing.

The teacher who comes before her classes unprepared in her part of the work, will find herself compelled to work always with pupils who fail to prepare their work. Or if her own work is not carried on with vigor, her pupils will never put energy in the doing of their work. If the teacher permits things to drift along without definite plan and preparation, the children quickly catch the spirit and their work will be aimless and without results.

Hence throughout the year I have had teachers work to a daily programme, guide their work by the state programme of studies, require clean, well-prepared work, and further, to do their own work with at least a fair degree of vigor.

This has resulted in greater mental activity, and therefore better work and better habits of work on the part of the pupils.

But the schools must not be permitted to assume all rights or duties of establishing right habits in the children. The chief part of this work rightly belongs to the home and cannot be delegated to or assumed by the school. The home and the school must co-operate for the best interests of the child.

If there is a spirit of fault-finding or unfriendly criticism on the part of either towards the other the effect upon the children is disastrous. If the daily happenings of the schoolroom are carried home and misinterpreted and discussed in the presence of the children, for them the usefulness of the school is impaired if not utterly destroyed and they are thus defrauded of their natural rights.

Or if a teacher is so injudicious as to speak slightingly of the town, or of the people or the children among whom she is working, she thereby throws away her chance of doing her best work for these children.

Injudicious criticism of teacher by parent, or of parent by teacher, tends to destroy in the child that respect for authority, and that confidence in his natural guardians and mental guides, which constitute two of the chief factors which make for good citizenship.

Unless parent and teacher work together in a friendly way for the proper training of the children, good results are impossible.

And may I here speak a word in behalf of the teacher? Her position is an exceedingly difficult one. She is usually a young girl, away from home and thrown among entire strangers, and this at a time in her life when she especially needs a mother's care and advice. It is very

likely that she is homesick and taxed to the utmost of her ability by her work. She is nervous and sensitive to the slightest word or glance that seems to her to indicate a criticism of her work, and the burden of this work has begun to weigh upon her and to almost crush her.

In the schoolroom she must have an unlimited fund of tact. She must be firm enough to control the restless, gentle enough to win the timid, calm enough to restrain the boisterous, animated enough to encourage the bashful and diffident; and these are only the incidental qualifications which she must have. Essentially, she must be a teacher—eapable of imparting all kinds of knowledge and training to all kinds of children. Put yourself in her place before criticising her too severely.

The work in all the schools is being brought closer to the programme of studies, and is being more closely graded so that practically the same work is being done in corresponding grades in all schools. This working to a programme of studies and the grading in accordance with it, means a very great saving in time. Without it pupils were frequently taken over the same subject or parts of a subject again and again, while other subjects of equal importance were slighted or entirely neglected as their supposed importance or unimportance appealed to a particular teacher, or it might be as her knowledge of the subjects permitted.

The work is being adapted to the age of the pupils. A child can learn the mechanics of reading better before he is eight years old than he can later. The essentials of language and the fundamental operations of arithmetic can be best learned before the age of eleven. During these early years the memory is very active and the child enjoys rapid drill work. He has very little power of steady application, but must have frequent changes of work. His reasoning powers have not yet developed and therefore the solving of puzzling problems, the attempt to give a thorough knowledge of any such subject as interest or mensuration, or the teaching of technical grammar, in

short, work in any abstract subject is entirely out of place. This is the time for establishing habits by doing. The child's thinking is slow, but he must be doing things all the time. He cares nothing for abstract principles or general rules but he is interested in doing the concrete example, and from the doing of a large number of concrete examples the abstract principle may be established.

It is not until the child reaches the age of twelve or fifteen years that he begins to reason from the abstract back to the concrete. The mechanical processes should be so thoroughly mastered before this that he would not have to give them any thought but may be able to give all his attention to the solution of the problem in hand. Most of the difficulties which upper grade and high school pupils encounter in their work arise from the fact that they did not receive sufficient drill in the fundamentals to give them the mastery of them, but were kept puzzling over work entirely beyond their ability, such as technical grammar and the difficult principles of arithmetic.

By adapting the work to the ages of the pupils there begins to show a material improvement in all subjects. The essentials of reading, language and grammar, arithmetic, history, geography, writing, etc., are better taught and the non-essentials are receiving less attention.

The most important changes in text-books during the year were in arithmetic and writing. In both of these subjects, with the new books, a marked improvement has been made in the work during the year.

The work in singing, which was introduced last year, is showing good progress and amply justifies the expense incurred.

In closing, I desire to extend my thanks to parents, teachers and school board whose support and co-operation have made the success of our work possible.

J. A. MACDOUGALL, Superintendent of Schools.

PEPORT OF THE SCHOOL BOARD.

In submitting our report for the year ending in March, 1909, it is in the belief that our schools have maintained a degree of progress and general prosperity that will compare favorably with other rural schools. Whatever we may provide in schoolrooms, or books, or good supervision, the success of our schools depends largely upon the teacher. The often repeated saying, that the teacher makes the school, is exemplified in some of our smaller schools quite as well as in the larger schools of the city. We realize that the selection of competent teachers is one of the most important duties devolving on the school board.

A question, often difficult of solution, is how to provide school privileges for the one, two, three or more children in sections where the limited number makes the support of a school inadvisable, and the homes of the children are so remote from any school as to require conveyance at the expense of the district. Arrangements that seem most consistent with all circumstances in the case, are sometimes unsatisfactory. It should be remembered, however, that a perfect equalization of privileges under circumstances above referred to, would be an impossibility.

The treasurer's report shows the balance in his hands of some \$600 less than that of a year ago. The annexation of the Burrough district to District No. 20, while relieving us of some expense, has materially reduced our revenue. A recent act of the legislature has made it the duty of each district to fix and pay its salaries, and to make all appropriations at the school meeting. It would be impossible to calculate definitely our current expenses for the coming year. It is evident, however, that we must

raise a larger amount of money than last year or submit to a curtailment of our school privileges.

ALBERT SALTMARSH, IRVING T. CHESLEY, JUDSON F. HOIT, School Board.

TREASURER'S REPORT.

REPORT OF WATER COMMISSIONERS.

Office of the Board of Water Commissioners.

Concord, N. H., February 1, 1909.

To His Honor the Mayor and the City Council:

The Board of Water Commissioners have the honor to transmit herewith, the reports of the superintendent and the engineer of the pumping station, exhibiting in detail the operations of the system for the year 1908, which cover the ground so fully that there is little for the board to add.

We wish, however, to commend and express our appreciation of the faithful service of all the employees of the department.

The physical condition of the system is eminently satisfactory. Our citizens have abundant cause for congratulation in the fact that while other municipalities have, during the protracted drought of last summer, been threatened with a water famine, our system has yielded an abundant supply of unexceptional quality, no consumer having been obliged to restrict himself in its use for fear of exhausting the supply.

Respectfully submitted,

HENRY C. HOLBROOK,
HENRY E. CONANT,
EDSON J. HILL,
GEORGE D. B. PRESCOTT,
HARRY H. DUDLEY,
NATHANIEL E. MARTIN,
SOLON A. CARTER,
HARLEY B. ROBY,
CHARLES R. CORNING, ex officio,
Water Commissioners.

REPORT OF THE SUPERINTENDENT.

To the Board of Water Commissioners:

I herewith present to you the thirty-seventh annual report of the operations of this department, showing the receipts, expenditures and abatements, together with a statement of extensions and improvements made during the year ending December 31, 1908.

EXTENSIONS AND IMPROVEMENTS.

Cast-iron main and distribution pipes have been laid and hydrants set during the year as follows:

In Franklin Street,

west from North State to Jackson Street, 786 feet 10inch pipe in place of 6-inch cement-lined pipe discontinued.

In School Street,

west from Hanover to Merrimack Street, 528 feet 10inch pipe in place of 8-inch cement-lined pipe discontinued.

In School Street,

west from Tahanto to Holt Street, 608 feet 10-inch pipe in place of 6-inch cement-lined pipe discontinued.

In Hall Street,

south from Hammond Street, 1,068 feet 8-inch pipe in place of 4-inch cast-iron pipe discontinued.

In Tremont Street,

west from North State to Jackson Street, 770 feet 8-inch pipe in place of 4-inch cement-lined pipe discontinued.

In Rumford Street,

north from Franklin to Church Street, 493 feet 8-inch pipe in place of 8-inch cement-lined pipe discontinued.

In Centre Street,

west from North Spring to Rumford Street, 317 feet 8-inch pipe in place of 6-inch cement-lined pipe discontinued.

In Iron Works Road,

west from South Street, 1,332 feet 6-inch pipe.

In Perkins Street,

west from Bradley to Rumford Street, 590 feet 6-inch pipe in place of 4-inch cement-lined pipe discontinued.

In Church Street,

west from North State to Jackson Street, 810 feet 6-inch pipe in place of 4-inch cement-lined pipe discontinued.

In Tremont Street,

west from Jackson to Rumford Street, 715 feet 6-inch pipe in place of 4-inch cement-lined pipe discontinued.

In Franklin Street,

west from North Main to North State Street, 337 feet 6-inch pipe in place of 4-inch cement-lined pipe discontinued.

In Pearl Street,

west from North Main to North State Street, 488 feet 6-inch pipe in place of 4-inch cement-lined pipe discontinued.

In Chapel Street,

west from North Main to North State Street, 363 feet 6-inch pipe in place of 4-inch cement-lined pipe discontinued.

In Court Street,

west from North Main to North State Street, 585 feet 6-inch pipe in place of 4-inch cement-lined pipe discontinued.

In Allison Street,

west from South Main to Dakin Street, 880 feet 6-inch pipe in place of 4-inch cement-lined pipe discontinued.

In Jackson Street,

south from Franklin to Washington Street, 993 feet 6-inch pipe in place of 4-inch cement-lined pipe discontinued.

In Academy Street,

south from Washington to Cambridge Street, 417 feet 6-inch pipe in place of 4-inch cement-lined pipe discontinued.

In Essex Street,

south from Washington to Centre Street, 563 feet 6-inch pipe in place of 4-inch cement-lined pipe discontinued.

In Merrimack Street,

north from Orchard to School Street, 910 feet 6-inch pipe in place of 4-inch cement-lined pipe discontinued.

In Huntington Street,

south from School Street, 213 feet 6-inch pipe.

In Penacook Street, Penacook,

extended south from Rolfe Street, 1,073 feet 6-inch pipe.

In Washington Street and Park Avenue, Penacook, extended west, 1.066 feet 6-inch pipe.

In Elliott Street, Penacook,

north from Park Avenue, 476 feet 6-inch pipe.

In Mill Road,

extended west from Orphans' Home, 714 feet 4-inch pipe.

On connections.

75 feet 6-inch pipe in place of 4-inch cement-lined pipe discontinued.

On hydrant branches,

235 feet 6-inch pipe and 18 feet 4-inch pipe; 10 feet 6-inch cement-lined and 12 feet 4-inch cement-lined pipe discontinued.

Also, 26 feet of 1-inch pipe; 867 feet of 1-inch pipe discontinued.

Eighteen new hydrants have been set as follows:

On Church Street at Bradley.

On Tremont Street east of Harrod.

On Tremont Street at Jackson.

On Pearl Street at Kimball Flanders'.

On Academy Street at William E. Dow's.

On School Street at Pine.

On School Street at Liberty.

On Huntington Street at Short.

On Laurel Street at Grove.

On Mills Street at Allison.

On Allison Street at Badger.

On Mill Road, St. Paul's School, at tenement No. 7.

On Hall Street, below Hammond.

On Iron Works Road at Brown's.

On Penacook Street, Penacook, at E. L. Davis'.

On Penacook Street, Penacook, at John Chadwick's.

On Elliott Street, Penacook, at Park Avenue.

On West Main Street, Penacook, at Pine.

Two hydrants have been removed:

On Allison Street at Mills.

On School Street near Holt.

There have been set 38 gates; discontinued, 19.

Total number of hydrants now in use, 372.

Total number of gates now in use, 928.

SERVICE PIPES.

There have been laid during the year and connected with the main pipes, 50 service pipes consisting of

48	3/4-inch,	1,035	feet.
1	1-inch,	63	feet.
1	2-inch,	4	feet.
50		1.102	feet.

There have been discontinued, 13; whole number in use at the present time, 3,627; total length of service pipes, 84,126 feet or 15.93 miles. We have placed 211 service boxes at the curb on old services, and in relaying the street pipes, we relaid 44 services.

We have set 48 meters during the year; 11 have been removed, making the total number now in use, 1,532.

The following table shows the height of water in Penacook Lake on the first day of each month:

January,	185.00	July,	184.05
February,	184.90	August,	183.00
March,	184.85	September,	182.80
April,	184.90	October,	180.00
May,	185.00	November,	181.20
June,	184.80	December,	180.60

The lowest point reached during the year was on December 31, being 180.10; the highest was on April 10, and was 185.10; mean height for the year was 183.41, which was .69 foot lower than the mean height for the year 1907.

We have been compelled to shut off one service for non-payment of water-bill.

The improvement of the wood-lots owned by the city around the shores of the lake has occupied the attention of our force during the winter months mainly by thinning and clearing out the dead wood and underbrush.

In the spring, 2,000 small pine trees were set out on one of the pasture lots, but owing to the extremely dry season some of them died. A small nursery has been started, twenty-five pounds of pine seed being purchased and sown in beds. It is the intention of the department to transplant these little trees on the several lots around the lake as soon as they are large enough.

The shores of the lake have had a great deal of attention this season but there still remains a large number of stumps which we hope to remove another season if the present low stage of water continues.

On account of high water which has at times been above the flagging on the dam, the fence and its foundations had become somewhat undermined so that repairs were necessary. It was decided to construct a solid concrete wall about five feet in depth and to extend the flagging in concrete to meet the face of this wall. A pipe rail fence with 2-inch pipe for risers and 1½-inch pipe for runners and special fittings has been placed on the wall. It is the intention to place a similar fence on the east side of the dam the coming season. This work was done by the department by day labor and it is hoped that it will prove substantial and lasting.

The 6-inch main has been extended in Washington Street and Park Avenue. Penacook, in order that the patrons of Contoocook River Park might have the benefit of Penacook Lake water.

There have been two other extensions of street pipes, one in Penacook Street, Penacook, south from Rolfe Street, and one in the Iron Works Road, west from South Street, in the city.

This season has seen practically the completion of the relaying of the cement-lined pipe laid in 1872, with castiron pipe, there now remaining but 1,200 feet, which will be replaced in 1909. This relaying, with the exception of what was done when the high service was installed, was begun in 1897, the work being done by the department by day labor and has been paid for wholly from the income from the water rates. With the increased size of mains the system is now in excellent condition for any demands that may be made upon it.

The following list is given, showing the extent of the relaying and the changes made in the sizes of the mains:

STREET.	Size. New.	Size. Old.

CEMENT-LINED PIPE IN USE JANUARY 1, 1909.

Laid:

1872. Washington Street, 501 feet, 6-inch pipe. Rumford Street, from Washington to School, 1,203 feet, 4-inch pipe.

1882. South Street, 2,301 feet, 6-inch pipe.

Rumford Street, from North State to Franklin, 3,290 feet, 12-inch.

18-inch main from dam to Rumford Street.

1885. Fruit Street, 1,437 feet, 4-inch pipe. Giles Street, 772 feet, 4-inch pipe.

1886. Chestnut Street, from Valley to High, 373 feet, 6-inch pipe.

> Valley Street, from High to Chestnut, 879 feet, 6-inch pipe.

> High Street, from Centre to Valley, 757 feet, 6-inch pipe.

High Street, from Chestnut to Franklin, 461 feet, 6-inch pipe.

Franklin Street, east from High, 120 feet, 6-inch pipe.

1887. Pleasant Street, from Liberty to Fruit, 1,322 feet, 6-inch pipe.

St. Paul's School line.

Penacook.

Rumford Street, from Franklin to School, 2.671 feet, 12-inch.

Rumford Street, from School to Pleasant, 1,203 feet, 10-inch.

Following is appended the report of the engineer. It will be seen by comparing this report with that of last year, that there has been an increase of 45,319,988 gallons pumped and 70,822 pounds of coal consumed, which is accounted for by the extraordinarily dry season.

In closing this report, I wish to express my gratitude to the members of the board for their assistance and advice during the year.

Respectfully submitted,
P. R. SANDERS,

Superintendent.

REPORT OF THE ENGINEER OF THE PUMPING STATION.

PUMPING STATION, CONCORD WATER-WORKS.

P. R. SANDERS, Superintendent:

SIR,—I would report that the pumping machinery at the pumping station is in good working order, and will need but few repairs the coming year.

Following will be found a statement of coal and other supplies used at the pumping station during the year, with a table showing the work for each month:

STATEMENT.

106 tons 852 pounds Andersen Forge coal.

152 tons 118 pounds Cumberland coal.

94 gallons of oil.

58 pounds of waste.

19 cords of wood.

13 pounds of grease.

ENGINE RECORD.

Months.	No. of days pumping engine No. 1.	d S/	Total days pumping.	Total hours pumping.	Average time pump-	Total water pumped.	Daily average pumped.	Total coal con-	Daily average coal consumed.	Total pounds of wood consumed.	*Gallons pumped per pound of coal.

E.

SUMMARY OF STATISTICS.

FOR THE YEAR ENDING DECEMBER 31, 1908.

In form recommended by the New England Water Works Association.

CONCORD WATER WORKS.

CITY OF CONCORD, COUNTY OF MERRIMACK, STATE OF NEW HAMPSHIRE.

GENERAL STATISTICS.

Population by census of 1900-19,632.

Date of construction—1872.

By whom owned-City of Concord.

Source of supply-Penacook Lake.

Mode of supply—Gravity, also pumping to reservoir for high service and fire protection.

PUMPING STATISTICS.

- Builders of pumping machinery—Henry R. Worthington, Harrison, N. J.
- 2. Description of fuel used—a. Kind—bituminous.
 - b. Brand of coal—Anderson's Forge and George's Creek Big Vein.
 - c. Average price of coal per gross ton delivered, \$4.72.

- 3. Coal consumed for the year—258.435 tons.
- 4. (Pounds of wood consumed) ÷3—equivalent amount of coal.
- 5. Total equivalent coal consumed for the year for pumping purposes—
- 6. Total pumpage for the year without allowance for slip—315,175,742 gallons.
- Average static head against which pump works— 200.46 feet.
- Average dynamic head against which pumps work— 205.07 feet.
- 9. Number of gallons pumped per pound of equivalent coal—544.44.
 - 10. Duty=

 $\begin{array}{c} {\rm 315,175,742~gallons~pumped} \times 8.34~{\rm (lbs)} \times 100 \times {\rm dynamic~head.} \ \, \underline{205} \\ {\rm Total~fuel~consumed,~578,890~pounds} \end{array} = 92,986,344$

Cost of pumping, figured on pumping station expenses, \$3,279.02.

- 11. Per million gallons pumped-\$10.404.
- Per million gallons raised one foot (dynamic)— \$0.051.

STATISTICS RELATING TO DISTRIBUTION SYSTEM.

MAINS.

- 1. Kind of pipe-cast iron and cement-lined.
- 2. Sizes—from two-inch to twenty-four-inch.
- 3. Extended—4,900 feet during year.
- 4. Renewed—12,549 feet during year.
- 5. Discontinued—13,467 feet during year.
- 6. Total now in use—67.28 miles.
- 7. Number of leaks per mile for year-
- Length of pipes two and three inches diameter— 3.19 miles.

- 9. Number of hydrants added during year—public, 16; private, 1.
- 10. Number of hydrants now in use—public, 372; private, 63.
 - 11. Number of stop gates added during year-19.
 - 12. Number of stop gates now in use, 928.
 - 13. Number of stop gates smaller than four-inch-none.
 - 14. Number of blow-off gates-82.
- 15. Range of pressure on mains at centre of city—88 pounds high service and 48 pounds low service.

SERVICES.

- 16. Kind of pipe-cement-lined.
- 17. Sizes-three-fourth-inch to ten-inch.
- ` 18. Extended-1,102 feet.
 - 19. Discontinued—295 feet.
 - 20. Total now in use-84,126 feet.
 - 21. Number of service taps added during year, 37.
 - 22. Number now in use-3,627.
 - 23. Average length of service-23.19 feet.

HEALTH DEPARTMENT.

BOARD OF HEALTH REPORT.

To the City Council:

We have the honor to submit the following report of the Board of Health for the year ending December 31, 1908.

MEETINGS.

Regular monthly meetings have been held throughout the year and some business of a routine nature was transacted at nearly every meeting. We have been frequently interrogated by the sanitary officer as to the best method of handling certain contingencies and we have taken pleasure in the discussions which have been provoked in this manner.

Contagious Diseases.

The city has been singularly free from contagious diseases during the past year. Such cases as have appeared have been promptly quarantined either at their homes or at the hospital. On the recovery or death of the patient the premises and all books, clothing, furniture, etc., are thoroughly fumigated by formaldehyde gas.

This gas, in concentrated form, is very deadly to all forms of germ life and effectually sterilizes all articles with which it is brought into intimate contact.

The method approved and adopted by this board is the one now generally conceded to be the most effectual. We refer to the potassium permanganate and formalin method which has the advantage of almost instantaneously liberat-

ing immense volumes of gas insuring good and efficient action even though the cracks around doors and windows are not sealed.

The liberal use of antitoxin in diphtheria cases has, of course, been the most important factor in the holding of that dread malady in check.

For a detailed statement of contagious diseases as well as of other matters of interest we refer you to the report of the sanitary officer which is transmitted herewith.

VACCINATION.

We are pleased to be able to report that our crusade for the better enforcement of the vaccination law has borne fruit with the result that there are now very few unvaccinated school children.

MILK INSPECTION.

The inspection of milk and dairies has gone steadily on by the milk inspector assisted by the sanitary officer. Your body has been kept in touch with the work by monthly reports, for a general summing up of which, as well as for other information pertinent to this matter, I refer you to the milk inspector's report which is hereby transmitted.

At a meeting held November 2 this board adopted the Dairy Score Card of the United States Department of Agriculture for the purpose of keeping the records of dairy and milk inspections.

This action serves to make our records uniform with, and comparable to, those of many other communities using the same methods.

It is probable that commerce, guided by science, will eventually solve the clean milk problem here as it has already done in many other places. The relentless law of the survival of the fittest is sure to gradually eliminate the unclean. The propaganda for reform should be an educational movement, teaching the public what it is entitled to have.

The laboratory and field work of the inspector should be addressed to the instruction of the producer and handler of milk primarily, and to informing the public as to which sources of supply nearest conform to our standards secondarily. It would seem as though a quarterly bulletin in the public prints, showing the score-card rating of all producers could not fail to be productive of much good. Perhaps a better method would be to publish the names of all those whose scores were equal to, or above a certain fixed minimum. This would naturally stimulate the producer as it seems likely that in the course of time those whose names habitually appeared on the "roll of honor" would receive the bulk of the most desirable patronage.

The rest would be simple. Forced by this "bloodless warfare of commerce" the delinquents must either retire from the business or adjust their methods and product to the standard demanded by the people.

From time to time the "fixed minimum score" should be raised a few points and thus the improvement would go on constantly all along the line.

WATER SUPPLY.

Our city is fortunate in having a never-failing source of pure water so near at hand. Every effort should be made to preserve its purity. The policy of the city in acquiring the shore property around Penacook Lake cannot be too highly commended. No doubt the forests which will eventually surround this charming body of water can be made to yield a constant supply of merchantable timber which in years to come will pay fair interest on the money invested.

The multiplication of power boats on the lake has raised the question as to the effect upon the water for

drinking purposes. It would seem as though there is no cause for fear in that direction.

The engine exhausts throws out some oil in the form of a spray. This settles *on the water* but does not mix with it. It must all be washed ashore in the course of time.

This film of oil on the water near the shore no doubt prevents the breeding of mosquitoes to a certain extent, as oiling the surface of ponds and swamps is a well known method of exterminating this pest.

The drainage of the various cottages and camps around the lake might be a menace did not rigid inspection by the sanitary officer reduce this danger to a minimum.

Mr. Howard, the state chemist, reports favorably on the water after a long series of analyses, covering every season of the year.

The faint vegetable odor and taste at certain times is due to the presence of certain *algae* or microscopic water plants. They are harmless.

In conclusion, the board wishes to express its thanks to the sanitary officer, Mr. Palmer, for his hearty and intelligent co-operation.

Respectfully submitted,

CHARLES R. CORNING, Mayor, CHARLES H. COOK, JR., GEORGE COOK.

Board of Health.

REPORT OF MILK INSPECTOR.

The adoption of the new milk ordinance, one year ago, was a distinct innovation in the methods of producing and handling milk in our city.

Previous to this time little thought was given to the care of this very important product, when, with a fat and solid of sufficient standard, everybody rested content. Now, however, we have begun to learn that the fat and solid content of a milk are of very little importance and that a clean, wholesome milk is what we want and that such a milk is of vital moment to the health of every consumer.

There is still much to be done in our city on this problem of clean milk, but all has been done as far as time and opportunity would allow to educate both consumer and producer. This has been accomplished in the main, as Mr. Palmer's report shows, by personal work, talks, etc., with both the producer and consumer, with the results that many methods have been changed and much equipment abandoned or improved.

The greatest difficulty in the production of clean milk is that the consumer is not willing to pay the price which will enable the producer to sell his milk of pure quality at a reasonable amount of profit.

We all know that milk as a universal food enters every home and is the principal food of infants, children and invalids, but few realize that every quart of milk at seven cents is equivalent in food value to a pound of beef at eighteen cents.

Clean milk is a safe and valuable article of food with nutritive value unimpaired, hard to produce and cheap at any price. Dirty milk is dangerous as a food with nutritive value very much impaired, easy to produce and dear at any price. To produce clean, wholesome milk requires great care and considerable expense; the producer must learn this, and having learned it, he necessarily expects the consumer to pay him for his time and care.

Concord does not pay for the cleanest of milk—few cities do for that matter. There are some men in Concord now who can furnish you a very creditable milk and a milk that stands out above most of the others. These men deserve encouragement by increased patronage, and I think they are getting it. These men are encouraged to do still better and all men are stimulated by just pride to raise their standard to that of the very best milk plant in our city, as shown by the records.

How high the standard will be raised depends entirely on how much Concord citizens are willing to pay for their milk.

The consumer, as well as the inspector, is the stimulant to make the producer bring to our door a clean, wholesome milk.

Mr. Weld, a Washington expert, estimated in a sample of Concord milk a teaspoonful of dir't to one eight-quart can. This man's milk is going into the homes of hundreds of Concord's citizens and unless the bacteriological count is over 500,000 or the temperature higher than fifty degrees Fahrenheit, no law can reach him.

Insist that your milk is left at your door in glass jars and refuse to pay for all milk which on standing shows dirt in the bottom of the jar. Don't pay for a milk that tastes bitter, or one that has a peculiar color, or is sour when received; all these characteristics are due to bacteria, which means carelessness in handling and might easily have been avoided.

In closing, will say that, with few exceptions, the attitude of the producer has been all that could be desired, and we feel that improvement will be steady and permanent.

CHARLES DUNCAN,
Milk Inspector.

REPORT OF SANITARY OFFICER.

To the Board of Health:

Gentlemen: As Sanitary Officer I herewith submit to you my annual report for the year ending December 31, 1908, detailing the general character of the work of the Health Department.

Mortality.

There were reported 428 deaths during the year, compared with the same number for the previous year. The death rate was 15.25 per 1,000, compared with 15.2 in 1907. There were 138 bodies sent out of town for interment and 95 bodies were brought to Concord from other places for burial; in each case a transmit permit issued by the proper authorities accompanied the body.

Contagious Diseases.

The record of 1908 shows that there was a decrease in the number of cases of contagious diseases in Concord, the total being less than for any year during the last four. There were reported to this office during the year, 100 cases of measles, 7 cases of scarlet fever, 44 cases of diphtheria, with 4 deaths, and 6 cases of typhoid fever, with 1 death, making a total of 157 cases and 5 deaths.

Houses containing cases of contagious diseases were placarded and quarantine established. A number of cases of diphtheria and scarlet fever were cared for at the contagious disease ward of the Margaret Pillsbury General Hospital, the indigent patients being provided for at the expense of the Board of Health.

Inspections.

I have inspected the different school buildings of the city and found them in good sanitary condition. Inspections were also made at different times during the year of the stables and alleyways in the business portion of the city and of all premises complained of.

WATER SUPPLY.

Concord is to be congratulated on its water supply. During the year samples have been analyzed and the results were satisfactory, also through the drought the latter part of the year samples showed upon analysis to be of good quality. I have inspected the lake and found that many improvements have been made by the Water Board in the removal of decayed stumps and other objectionable matter. Inspections were also made of the reservoir, and found to be in good condition.

Rabies.

Several dogs suspected of having rabies were called to our attention and in two instances the animals were killed and the heads were sent to Hanover for analysis, with the results being reported as positive.

FUMIGATION.

The cost of the supplies for fumigation was \$50.52. Formaldehyde gas liberated by potassium permanganate was used with the same good results as in former years.

INSPECTION OF DAIRY FARMS.

January 1, 1908, an ordinance regulating the sale and care of milk went into effect, and during the year Dr. Duncan, our milk inspector, and myself have inspected 100

dairies where milk is supplied to our city. I am sorry to state that many of the conditions were not what they should be or what the ordinance requires.

In October, in company with Professor Ivan C. Weld, assitant in the United States Department of Agriculture at Washington, we inspected twelve of our best milk producing dairies and used the United States government dairy score eard, and I am sorry to state that the seores ranged from 29 to 56 points, or an average of 40 per cent. The average should be twice that figure.

We have visited dairies where the conditions were filthy: the walls and ceilings were covered with cobwebs and dust, the large, flaring milk pails were used and the dirt dropping from above into the milk pail or can contaminated the milk. The particles might be strained out but the germs remained in the sensitive product to multiply.

Suggestions have been made to the dairymen for the better sanitary condition of the barns and greater eleanliness in the care of the milk and milk utensils. Many of our suggestions have been carried out, and others are to follow, and we hope during the coming year to make greater progress along these lines with the co-operation of our citizens in demanding and knowing they have a pure and clean milk. The dairy score cards that are made from time to time will be on file as a public record.

Expenditures of the Board of Health of the city of Concord for the year ending December 31, 1908:

NUISANCES, COMPLAINTS AND INSPECTIONS.

A statement of the number and character of the nuisances which have been abated by this department during the year, appears below:

Accumulation of ashes,	4
Adulteration of food,	1
Catch-basin traps broken,	5
Collecting garbage without license,	4
Complaints made without cause,	5
Contamination of Long Pond,	2
Dead animals,	40
Decayed fruit,	3
Decayed meat and fish,	2
Defective plumbing,	1
Dogs suspected of having rabies,	7
Drinking water questionable,	4
Dumping rubbish,	14
Filthy premises,	11
Keeping hens,	6
Keeping hogs,	10
Milkmen not complying with law,	8
Odor from cesspools,	1
Odor from dumps,	4
Odor from fish markets,	2
Odor from garbage cans,	7
Odor from manure heaps,	4
Odor from privy vaults,	12
Odor from sewage,	1
Odor from stables.	12
Odor in houses,	17
Odor in offices,	2
Other nuisances,	. 9
Plumbers doing work in violation of law.	3
Sewers obstructed,	2
Sewer-traps broken.	4

Sinks with imperfect drainage,	2
Throwing out ashes,	4
Throwing out slops,	2
Throwing out swill,	5
Washing ice at watering trough,	1
Water-closets foul and offensive,	6
Water-closets out of repair,	5
Water-closets without water supply,	5
Water in cellars,	6
Watering trough in unsanitary condition,	1
Well in cellar.	1
Total,	245
Inspection of Plumbing.	
,	
The number of inspections will be found in the	table
herewith annexed:	
Plumbing permits granted,	102
Water-closets put in,	144
Sinks put in,	62
Bath-tubs put in,	70
Wash-bowls put in,	86
Wash-trays put in,	15
Slop-sinks put in,	1

Total number of deaths for the year 1908, 428, compared with 428, 1907. Average death-rate for the year 1908, 1525, compared with 1.62, 1907. Total number of births for the year 1908, 402, compared with 388, 1907. Total number of hirths for the year 1908, 402, compared with 391, 1907. Total number of marriages for the year 1908, 174, compared with 291, 1907.

CHARLES E. PALMER, Sanitary Officer.

REPORT OF CITY PHYSICIAN.

To the City Council:

I have the honor of submitting the following report for the year ending December 31, 1908:

Number of calls on city poor,	115
Office consultations city poor,	75
Confinement case city poor,	1
Number of calls at police station,	8
Number of calls made on contagious cases quaran-	
tined by Board of Health,	35
Office consultations, Board of Health cases,	15
Number of cases vaccinated and vaccination certifi-	
cates given.	141

A considerable number (perhaps one hundred and fifty) of school children were examined for contagious diseases at the request of the sanitary officer. This was done as a matter of routine when a contagious disease made its appearance in a school.

Respectfully submitted,
CHARLES H. COOK, JR.,
City Physician.

FIRE DEPARTMENT.

REPORT OF CHIEF ENGINEER.

To the Honorable Mayor and City Council:

I herewith submit for your consideration the following report of the Fire Department for the year 1908:

The department responded to 74 bell alarms and 199 still alarms.

	В	ell.	Still.	Total.
Precinct,			166	211
Penacook,		11	21	32
East Concord,	1	10	3	13
West Concord,		8	9	17
		→ –		
	7	74	199	273

This report will be found to contain statements in detail embracing the amount of expenditures, a complete roll of the department, with residence and occupation of each member, a record of all fires and alarms which have occurred during the year and the causes thereof, as nearly as could be ascertained, with the names of the owners or occupants and the value, loss, insurance and insurance recovered in each case.

The apparatus is in good condition, with the exception of Pioneer Engine, No. 3, which will have to be repaired or replaced in the near future.

The Pioneer, Cataract and Good Will wagons were thoroughly repaired, retouched and varnished.

One Eastman Jumbo Deluge set was added to the equipment.

One horse was purchased and one placed on a farm, conditionally.

The test of hose resulted in the condemning of 300 feet and the laying aside for relining of 500 feet.

I respectfully recommend the purchase of 500 feet of hose during the coming year, as was done in the year preceding.

This policy continued, will, under ordinary circumstances, keep the complement of hose intact and avoid the necessity of purchasing a large amount at one time. The fire alarm telegraph system is in good condition.

The storage battery plates, 244 in number, were renewed.

A Gamewell electric alarm system was installed in Penacook, and, as will be seen by the report of Assistant Engineer F. M. Dodge, in whose charge it rests, has given most satisfactory service. The regrettable excess of expenditures over appropriations is in part explained by the advantageous purchase of extra fuel, the abnormal number of brush fires and attendant expense, and the high price of forage which prevailed throughout the entire year.

I wish to return my sincere thanks to your honorable body for the opportunity afforded me to attend the convention of the International Association of Fire Engineers held at Columbus, Ohio, in August.

Respectfully submitted, W. C. GREEN, Chief Engineer.

STILL. November 16, 2.14 p. m. Chimney fire in residence of J. R. Hosking, 8 Lyndon Street. Extinguished by Chemical Company. No loss.

STILL. November 16, 5.44 p. m. Fire in Franklin School, corner of Franklin and Rumford Streets. Chemical Company responded but before arrival upon the scene a bell alarm had been sent in. Upon the arrival of the Chemical Company the flames were burning briskly in the southwest corner of the basement, near one of the heaters from which it probably caught in some manner unknown. Entrance was at once effected and a stream from the chemical engine brought to bear upon the fire. The department arriving shortly, this stream was reinforced by hose lines and it was hoped that the fire had been checked at that point. This hope was short-lived, however, as it was soon evident that it had worked up through a ventilating duct to the attic.

Box 13. November 16, 5.47 p. m. Box pulled for the Franklin School fire.

FIRE-ALARM TELEGRAPH.

NUMBER, LOCATION, ETC.

For the purpose of uniformity in numbering the firealarm boxes, the city is divided into five districts, viz.:

DISTRICT 1. Embraces that section of the city north and west of Washington Street, box 17 of this division being located on the south side of the street.

DISTRICT 2. Embraces all between School and Washington Streets.

DISTRICT 3. Embraces all between Pleasant and School Streets.

DISTRICTS 4, 5 AND 6. Embrace all south of Pleasant Street.

The first figure of the box number will indicate the district.

District No. 1.

- 9. New Hampshire State Prison.
- 12. Curtice Avenue.
- 13. Franklin and Rumford.
- 14. Bradley and Walker.
- 15. Main and Church.
- 16. Franklin and Jackson.
- 17. Alert Hose House.
- 18. C. S. Gale's Store.
- 19. Centre and Auburn.

DISTRICT No. 2.

- 21. State, opposite Court.
- 23. Main and Chapel.
- 24. Main and Centre.
- 25. Main and School.
- 26. Centre and Union.

- 27. School and Merrimack.
- 28. School and Spring.
- 29. Centre and Essex.

DISTRICT No. 3.

- 32. Warren and Pine.
- 34. Central Fire Station.
- 35. Martin's Drug Store.
- 36. Pleasant and Spring.
- 37. Pleasant and North Fruit.
- 38. Orchard and Merrimack.

DISTRICT No. 4.

- 41. South and Thompson.
- 42. Good Will Hose House.
- 43. Main and Fayette.
- 45. Nelson & Durrell's Store.
- 46. Perley and Grove.
- 47. South, opposite Downing.
- 48. Thorndike and South.
- 49. West and Mills.
- 412. Wall and Elm.
- 413. Main, opposite Thorndike.
- 414. State and West.

DISTRICT No. 5.

- 51. Boston & Maine Railroad, new shops.
- 52. South Main and Allison.
- 53. Hall and Hammond.
- 54. Broadway and Pillsbury.
- 56. St. Paul's School.
- 57. Pleasant View.
- 521. Broadway and Rockingham.
- 522. South Main and Holly.

DISTRICT No. 6.

62. South Main, opposite Holt Bros.

PRIVATE BOXES.

- 5. Boston & Maine Railroad—north end passenger depot.
- 6. The Abbot-Downing Company.
- 7. New Hampshire State Hospital.
- 8. Page Belting Company.
- 9. Three boxes inside New Hampshire State Prison.
- 33. State House.
- 55. Boston & Maine Railroad, old repair shops.

FIRE-ALARM SIGNALS.

Alarms rung in from boxes 41, 42, 43, 45, 46, 47, 48, 49, 412, 413, 414, 51, 52, 53, 54, 55, 56, 57, 62, 521 and 522 will not be responded to by the Alert Hose Company until signaled. The signal to proceed to the fire will be four blows or second alarm, excepting alarms rung in from box 56.

Alarms rung in from boxes 8, 9, 12, 13, 14, 15, 16, 17, 18, 19, 21, 23, 26, 27, 29, 32, 37, 56 and 57 will not be responded to by the Good Will Hose Company until signaled. It will be governed by the same signals governing Alert Hose Company. The Alert Hose and Good Will Hose Companies will hitch up and remain in readiness 20 minutes after the first alarm, to all boxes not responded to on first alarm. Then, receiving no signal, the officers in charge shall dismiss their companies.

Alarms rung in from boxes 12, 37, 53, 54, 57 and 521 will not be responded to by Kearsarge Company on first alarm.

The signal to proceed to the fire will be two blows, four blows, or second alarm, as circumstances may warrant.

Kearsarge Steamer to all calls except 51.

Eagle Hose Company to all calls.

Eagle Steamer to box 6, on first alarm; to boxes 23, 24, 25, 33, 34, 35, 42, 43, 45 and 413, on second; to all others on third, except 9 and 56.

Governor Hill Steamer will respond to boxes 7, 8 and 9 on first alarm; to boxes 5, 6, 12, 13, 14, 15, 16, 17, 18, 19, 21, 26, 27, 28, 29, 32, 36, 37, 38, 41, 46, 47, 48, 49, 412, 414, 52, 54, 55, 57, 62, 521 and 522, on second; to all others on third.

Chemical Engine will respond to all box alarms except 8, 9, 51, 56, 57 and 521.

Veterans' Auxiliary Company will respond to all third alarms occurring before the reeall, whether emanating from same box or not.

Two rounds of 11 strokes each will signalize the requirement of assistance out of town, and will be responded to by a detail of three men from each company, appointed for the purpose, and by those alone.

Two additional blows will indicate that the call for assistance emanates from East Concord. Such apparatus will be detailed as circumstances warrant. In case further aid is necessary, box 34 (Central Station) will follow.

All-out signal, three strokes of the bell.

BRUSH FIRE SIGNAL.

Three rounds of four strokes each will be sounded on the bells, and will be responded to by a detail of four men from each company, appointed for the purpose, and by those alone.

MILITARY SIGNAL.

Two rounds of 3-1-2.

CONCORD STATE FAIR GROUNDS.

Two rounds of 5-1-2.

To be responded to by Good Will Company and ap-

paratus, Eagle Company excepting engineer and stoker, Eagle wagon, Kearsarge Engine, engineer and stoker, and Hook and Ladder Company.

All apparatus excepting Kearsarge Engine to return immediately to quarters with detail sufficiently large to reload and work apparatus should occasion require.

Companies not responding to remain in quarters until recall is sounded, in readiness to respond to summons by telephone.

SIGNALS FOR CLOSING SCHOOLS.

Two strokes of the bell given three times, with a pause of 15 seconds between the rounds.

The signal to close for the forenoon session will be given at 8 o'clock a. m.

The signal to close for the afternoon session will be given at 1 o'clock p. m.

The signal to close all schools for one session will be given at 11.30 a. m.

TESTING SIGNALS.

For the purpose of testing the condition and accuracy of the fire-alarm telegraph, a box alarm will be rung in every Monday afternoon at 4.30 o'clock precisely. It will be one single round only, indicating by the strokes on the bells the number of the box. The boxes used for this purpose will vary each week, alternating in the circuits.

Upon each other week-day a single blow upon the bells will be rung in from a box, alternating as before mentioned

THE FIRE-ALARM TELEGRAPH

is the "Gamewell" patent. It embraces 40 miles of wire.
On the lines are 43 fire-alarm boxes belonging to the
city, and nine private boxes—in all, 52. There are three

alarm bells, one of 3,724 pounds (bell metal), one of 3,740 pounds (bell metal), and one of 2,000 pounds (American steel). There are also 16 mechanical tappers, 40 directaction tappers, one four-circuit repeater, and six indicators.

The battery consists of 244 storage battery cells for the lines, and 46 open-circuit battery cells for other electrical purposes.

The alarm system was installed in 1880 by the Gamewell Fire-Alarm Telegraph Company.

DIRECTIONS FOR GIVING AN ALARM.

Above all things, keep cool.

To obtain the key to the box, break the glass in the key box located beneath the alarm box.

In each box there is a small bell called a "tell-tale." designed expressly for the purpose of informing you whether an alarm is being transmitted the instant you open the door.

Open the box, and if this bell is not heard, pull down the hook once only and let go.

But if this bell should be heard, it would indicate that another box had been pulled, and it would be useless to attempt to pull another until the one already pulled had performed its mission.

Wait until 20 seconds have elapsed after the "tell-tale" has stopped ringing, close the door, which will restore the armature to the position it left when the door was opened.

Open the door, pull down the hook once only and let go. Should there be no response, pull it again.

Then should there be no response, go to the next box. Unless your presence is most urgently required at the scene of the fire, remain at the box to direct the department.

Never open the box or touch anything pertaining to it except in ease of fire.

Never give an alarm for a fire seen at a distance.

Be reasonably sure that there is a fire before giving an alarm.

Never give an alarm for a chimney fire unless there is imminent danger of the building catching.

PENACOOK FIRE-ALARM TELEGRAPH.

NUMBER, LOCATION, ETC.

W. C. Green, Chief Engineer:

I herewith submit for your consideration the following report of the Penacook fire-alarm telegraph system:

The system is the Gamewell patent and consists of three and one half miles of number nine iron wire.

On the lines are six boxes owned by the city, two private boxes, one 1,500-pound bell, one indicator, two mechanical gongs and four direct-action tappers. The battery consists of thirty-six storage battery cells.

The system has given satisfactory results and has been of great assistance in locating fires and saving valuable time in giving an alarm.

I would respectfully recommend the addition to the system of two boxes during the coming year, and a whistle blowing attachment also, as the territory covered does not admit of the hearing of the bell at all times.

Respectfully submitted,

FRED M. DODGE.

Assistant Engineer.

Location of Boxes.

- 35. Washington Square (Exchange Block).
- 37. Washington Street, near Outlet.
- 39. South Main Street, near Cemetery.
- 42. High Street, opposite Maple Street.

- 45. Summer Street, opposite Church Street.
- 47. Merrimack Street, opposite Hose House.

PRIVATE BOXES.

- 25. Hoyt Electrical Instrument Works.
- 62. Concord Axle Works.

ALL-OUT SIGNAL.

Three strokes of the bell.

BRUSH FIRE SIGNAL.

Three rounds of four strokes each.

OUT OF TOWN SIGNAL.

Two rounds of eleven strokes each.

FOR FIRE ON BOSCAWEN SIDE.

Box 35, with two additional strokes.

SIGNALS FOR CLOSING SCHOOLS.

Two strokes of the bell given three times, with a pause of 15 seconds between the rounds.

The signal to close all schools for the forenoon session will be given at $7.30\,$ a. m.

The signal to close for the forenoon session at the Charles Street building will be given at 8.00 a.m.

The signal to close all schools for the afternoon session will be given at 12.15 p. m.

. The signal to close for the afternoon session at the Charles Street building will be given at 12.45 p. m.

TESTING SIGNALS.

For the purpose of testing the condition and accuracy of the fire-alarm telegraph, a box alarm will be rung in every Saturday afternoon at 12.50 o'clock precisely. It will be one single round only, indicating by the strokes on the bells the number of the box. The boxes used for this purpose will vary each week, alternating in the circuits.

Upon each other week-day a single blow upon the bells will be rung in from a box, alternating as before mentioned.

DIRECTIONS FOR GIVING AN ALARM.

To open the box, break the glass and turn the key.

In each box there is a small bell called a "tell-tale," designed expressly for the purpose of informing you whether an alarm is being transmitted the instant you open the door.

Open the box, and if this bell is not heard, pull down the hook the whole length of the slot, once only, and let go.

But if this bell should be heard, it would indicate that another box had been pulled, and it would be useless to attempt to pull another until the one already pulled had performed its mission.

Unless your presence is most urgently required at the scene of the fire, remain at the box to direct the department.

Never open the box or touch anything pertaining to it except in ease of fire.

Never give an alarm for a fire seen at a distance.

Be reasonably sure that there is a fire before giving an alarm.

Never give an alarm for a chimney fire unless there is imminent danger of the building catching.

The Penacook fire-alarm system was installed in June, 1908, under direction of the chief engineer.

ROLL OF THE FIRE DEPARTMENT, 1908.

Permanent Chief Engineer.

WILLIAM C. GREEN,

14 A. B. Smart,

Office, Central Fire Station.

Assistant Engineers.

PRECINCT.

JOHN J. McNulty, 1st Asst., Machinist, 35 West Street.

Miscellaneous Duties.

The following table exhibits an abstract of the miscellaneous duties performed by the police in addition to the number of arrests:

Number of duty calls rung in on police signal from January 1, 1908, to December 31, 1908, 45,935 Called to quell disturbances, 17 Stray teams found,

Stray horses found,	2				
Number times city ambulance required,	121				
Number of breaks reported,	5				
Number of breaks in water-pipes reported,	`2				
Bicycles found on street,	34				
Number of callers received at station.	6,617				
Complaints received and investigated.	407				
Number of officers made liquor searches,	48				
Number of officers attended fires,	59				
Number times horse used,	703				
Number of prisoners taken to jail,	7				
Number of street lights reported out,	326				
Number of lost children returned to their parents,	11				
Number of officers assisting in taking persons to state	e				
hospital,	12				
Number of telephone calls in city answered,	8,370				
Number of telephone calls out of city answered,	533				
Number of doors tried, including Penacook,	554,510				
Number of doors found open and secured, including	2				
Penacook,	267				
Number of doors found open at Penacook,	47				
By reference to the foregoing table it will be se	en that				
there were a large number of doors found open and secured,					
this shows the thorough work done by the patrolmen and					
undoubtedly prevented larcenies that might otherwi	se have				
occurred.					
Number of dogs killed.	10				

LODGERS.

Number and ages of persons applying for lodging:

Number of runs made by patrol wagon,

Number of miles covered by patrol wagon,

1907. 1908.

44

 $45\frac{1}{2}$

Whole number of lodgers, including Penacook, 700 1,514

Harry J. Jones,
George G. Allen,
Willie A. Little,
Alvin H. Urann,
Thomas P. Davis,
James Jepson,
Joseph A. Flanders,
Fred S. Pendleton.

In concluding this report, permit me to return thanks to the honorable mayor and city council for the support they have given me; also to the board of police commissioners, judge of police court, and City Solicitor Edmund S. Cook, all of whom have been very kind, considerate and accommodating at any and all times; and to all others who have contributed to our success, we extend our thanks.

Respectfully submitted,

JAMES E. RAND, City Marshal.

PUBLIC LIBRARY.

REPORT OF TRUSTEES.

To the City Council of Concord, N. H.:

The trustees of the Public Library take much satisfaction in submitting to the city government and to the citizens of Concord the annual report of the librarian. Its lucid and comprehensive statements of the work done during the past year prove the increasing usefulness of this department and plainly indicate that the library might be of much greater advantage to the people, if it were furnished with adequate accommodations. That it is sadly crippled in this respect is a fact so obviously apparent, that an assertion to the contrary would not weaken its force, except upon the theory that no public library is needed. But the trustees do not deem it necessary at this time to indulge in repetition. Former reports contain our views upon this subject.

With the usual appropriation of \$5,000 for the support of the library it can continue its work, it is believed, with some degree of success for another year.

Respectfully submitted,

R. E. WALKER,

President Board of Trustees.

REPORT OF LIBRARIAN.

To the Board of Trustees of the Concord Public Library:

Gentlemen,—The number of volumes circulated during 1908 was 96,091, an increase of 4,958 over the preceding year, and the largest total in the library's records. No account is kept of the number of persons who consult books in the reference room or of the number who frequent the reading room. Only once before, and that in 1889, was this great circulation of 1908 approached; and in 1889 the rush of business was induced by the removal of the library into this then new Fowler building and by the withdrawal of all subscription charges.

It is surprising that the use of the library has increased during 1908, as the comfort of readers and the efficiency of our service are hindered by our cramped quarters, and as cheap attractions have multiplied in town.

No book has been lost during 1908 which has not been settled for by the loser. There have been a few despicable mutilations of volumes, consisting chiefly of the cutting out of leaves.

The proportion of fiction read was, as usual, about 70 per cent. The boys and girls, however, are taking out a better class of stories than formerly because much of their leisure for reading has to be spent on the standard fiction which they are required by the schools to become familiar with; 1908 has been the first year to see an appreciable increase in the reading of works on sociological subjects.

Number of volumes bought during the last	t
twelve months,	1,225
Discarded because worn out,	812
Net gain to shelves,	413
Number of volumes now in the library.	29.491

Of the 1,225 volumes purchased, 515 were of new publications, 115 came from the binding of magazines for reference work; of the remaining, 366 were fresh copies of old favorites and 229 were desired duplicates—not necessarily novels, for we had to buy two copies of "The Life of Alice Freeman Palmer," two of "Classroom Management" and of a few other non-fiction works.

Last winter, when it was called dull times in Concord, we imagined that people might have unoccupied hours when they would like to resort to a cheerful, warm place stocked with newspapers and magazines; therefore, in the hope of making the library of more good to a greater number, we kept open till 9 o'clock during February and March. Placards advertising this privilege were taken by the librarian to the railroad shops, the manufactories and quarries, the pool-rooms and restaurants, the corner groceries and the Main-Street stores. The experiment was not a success; no new element was drawn to the library and the reading room often had a deserted look during this hour when we had hoped to see it crowded.

A single opportunity which we offered was more eagerly embraced. I refer to the night when, at the close of its session, those in attendance at the Evening School across the way visited the library and spent a social hour looking about and choosing books to carry home. These chance borrowers were of many nationalities and it was a great pleasure to surprise them by the loan of stories in their native tongues.

At the request of the Woman's Club a shelf in the hall was each month filled with printed matter relating to a topic suitable for the Club's consideration. The different subjects which thus challenged attention but did not seem to secure it from January to May were:

Forestry.
Juvenile Courts.
The Town Beautiful and Gypsy Moths.
Organized Play and Vacation Schools.
Gardens.

At the beginning of the school year, in September, the library distributed among Concord teachers a list with call-numbers of books recommended for their perusal by the State Superintendent of Public Instruction; this list was well received. Small collections of our books are placed at the disposal of any teacher desiring the same; and the librarian, upon request, gives brief talks about books to pupils at their schoolrooms.

For several years the library has run a summer branch and in 1908 it was located over on the Plains from the middle of June to the middle of September. This makes five suburbs of Concord where library extension work has been successfully tried. Adults appreciate this rotating Branch sufficiently to make its maintenance worth while, but it is a good thing chiefly for the children who, during the long vacation, thus have a place to resort to where books and a friend await them. The little shack rented on the Plains was close to the main road and the librarian found the location blessed by a breeze from off pine woods and by a wide horizon.

Our deposit and delivery stations at East Concord, West Concord, Mast Yard and St. Paul's School remain under the supervision of the same capable persons as in 1907. We regret that at Penacook Mr. George H. Whitman, by reason of his intention to move elsewhere, can no longer take eare of our bi-weekly box of books; but the Ward 1 agency will be continued. From each district comes testimony that these little come-and-go libraries are enjoyed. The lady in charge of one writes:

"I am surprised that people are reading so eagerly; one woman who has been quite discontented—a person who never read even a newspaper—is reading two or three books a week and seems no end happier, and she says that she had no idea stories were so nice."

The United States and foreign governments, our own and other states, Concord and sister cities have as in previ-

ous years favored us by donations of their publications. From colleges, churches, hospitals, fraternities, associations, clubs and political parties we have received valued reports and other printed matter. Of individual donors I will mention as of especial interest to Concord people the following:

Mrs. Armenia S. White,

Mrs. Armenia W. Hobbs,

Mrs. William B. Durgin,

Mrs. A. B. Cross,

Mrs. R. W. Cate,

Mrs. Henry B. Colby,

Miss Lillian Phaneuf,

Mr. Samuel C. Eastman,

Mr. William E. Chandler,

Mr. Frank W. Rollins,

Mr. Giles Wheeler,

Mr. Roy M. Grover,

Mr. B. J. Harriott, Mr. Milo Benedict.

The death of Mr. Moses Hazen Bradley, in October of the past year, removed from the Board of Trustees one who was sincerely interested in the welfare of the library and one from whom the staff experienced many kindnesses.

There being nothing new to be said concerning our pressing needs, the foregoing report is respectfully submitted.

GRACE BLANCHARD,

Librarian.

REPORT OF CITY ENGINEER.

OFFICE OF THE CITY ENGINEER, CONCORD, N. H., December 31, 1908.

To the City Council:

The sixteenth annual report of the engineering department, showing something of the work covered by it, is herewith submitted.

The expenses of the department have been as follows: Paid engineer and assistants, \$3,148.57 for supplies, 114.60 postage, 4.25 repairs, 19.30 express, 2.25 telephone rental and tolls. 29.50 car fares and livery, 65.90 cards, assessors maps. 14.63 Total. \$3,399.00 Appropriation for engineering department, \$2,900.00 Appropriation for assessors' maps, 500.00 Total, \$3,400.00 Expended, 3,399.00 Unexpended balance, \$1.00

Assessors' Maps.

During the early months of the year plans of Wards 4, 5 and 6 were completed, showing the different pieces of property in each, but owing to the difficulties in definitely settling the ownership of some properties, only the plans of Ward 6, with a full list of the owners, were completed and turned over to the assessor of that ward. The other plans of Wards 4 and 5, together with a portion of Wards 7, 8 and 9 will be ready for the assessors in those wards early in April, 1909.

The field work on the remaining portions of the several wards will be greatly increased as we get further back from the thickly settled portions of the city, where lots are less clearly defined and are much more difficult to locate. It is hardly possible for one not familiar with the localities covered with varying growths, to locate and value the different parcels of land and to properly tax the same without the assistance of some map to show the different owners and the areas covered by each.

Many owners fail to return their outlying lands, or to record deeds showing transfers of such property, thereby avoiding taxation on them.

It is apparent, that, as we get into the outlying districts, property will be found, which will, in a few years, pay for much of the labor on maps in the shape of taxes.

The amount expended on this work the past season was \$1,024.82. The appropriation made for this work was \$500, the balance of \$524.82 was taken from the appropriation for the engineering department.

PARK DEPARTMENT.

The stone work, at the entrance to White Park, opposite Pine Street, was built the past season from plans made in this department. Batters were set for this work and final measurements made of it and turned over to the park commissioners.

FIRE DEPARTMENT.

The maps showing the location of all fire-alarm boxes

and hydrants, in the city proper, was brought up to date, and a map showing the location of the fire-alarm boxes and hydrants in Penacook was made and turned over to the assistant chief engineer in that district.

WATER-WORKS.

Batters were set for the concrete wall on the westerly side of the dam at the lower end of Forge Pond.

CEMETERIES.

But little work was done for the cemetery commissioners during the past season as no time was available owing to demands in other directions.

Necessary surveys should be made of the southerly addition to Blossom Hill Cemetery, before that section is disturbed in any way, in order that such work as may be done there will be in accordance with some fixed plan.

The deed books for Blossom Hill Cemetery were brought up to date.

BUILDING PERMITS.

In company with the chief engineer of the fire department I have attended fifteen hearings upon petitions for repairs or for new structures.

All of the petitions were granted after hearings upon the premises.

HIGHWAY DEPARTMENT.

The work for this department has been, as usual, the setting of grades and giving lines, when requested, for street and sidewalk improvements and construction.

Lines were given for the widening of the bridge across Turkey River, near St. Paul's School; a sketch of location of girders in the floor of the bridge and clamps for holding girders in place was made and delivered to the commissioner of highways.

Monthly statements of the amounts of coal-tar concrete surfaces laid for sidewalk and roadway work were made during the season in which it was possible to lay this material.

SEWERS.

Much time was spent on the construction of the "Hall's Court" outlet sewer, from the commencement of the work in the spring until September first.

The building of the sixty-inch portion under the tracks of the Boston & Maine Railroad was necessarily somewhat delayed by the nature of the work, as trains were run at short intervals and the work had to be in readiness, at all times, for the safe passage of trains. The hearty co-operation of the railroad officials aided the work in many ways and was fully appreciated.

The forty-two-inch scetion from the foot of Hall's Court to its junction with the sewer from the north, in North Main Street, was in the deepest cutting of the whole line but the entire work was completed without any accident or injury to any persons employed on the works.

The boulders and old retaining wall, found on the easterly side of North Main Street, were costly to remove near the bottom of the trench, as was also the old culvert and the stand-pipe from it which were encountered in laying the thirty-inch pipe to connect the sewer from the south with the forty-two-inch sewer.

The completion of this outlet does not relieve us from the necessity for continuing the work of enlarging the sewers in North Main, Washington, Beacon, Rumford and Franklin Streets, to relieve the much congested conditions in the districts served by this outlet. At present the outlet is carrying only a small portion of its capacity, it will, when the contemplated enlargements of connecting mains are made give the desired relief.

The need of increased capacity in the mains, in the sev-

eral districts of the city precinct, is more apparent as our street surfaces are improved, the land more closely built upon and more surface water thereby added to the already overloaded sewers.

Your earnest attention is called to the urgent need of liberal appropriations for sewer improvements.

But one small lateral sewer was laid the past season and that in North State Street opposite Calvary Cemetery.

The cost of all construction and repairs is given on the following pages.

West Concord Sewer Precinct.

Repairs to the twenty-inch outlet in this precinct were necessary on account of settlement in the land lying easterly from the old kit factory site. The pipes were uncovered at the points where settlements were noted, the joints re-made and the earth replaced. No trouble has been noticed since this treatment. It was probably caused by high water in the river forcing out the old joints.

At the lower outlet the brook became foul and the channel seriously obstructed, so that it was necessary to clean out the brook channel for some distance. The principal cause of this trouble was the very dry season and the consequent reduction in the flow both in the sewer and the brook into which it empties.

There was expended for above work and flushing

the sum of \$122.93 Balance from 1907. 24.65

Overdrawn, \$98.28

St. Paul's School Sewerage Precinct.

There has been expended the annual charge for water used in the flush-tanks; \$45 to the water-works, and the sum of \$2 for trucking. Total expenditure, \$47.

REPORT OF CITY ENGINEER.

Funds available January 1, 1908. Expended,	\$70.64 47.00
	The second second
Unexpended balance,	\$23.64

Unexpended balance,

EAST CONCORD SEWER PRECINCT.

No repairs were made and no expenses incurred during the season chargeable to construction and repairs, leaving the amount available for this work the same as last year, viz., \$127.53.

The employees of this department for the past season were Fred W. Lang, principal assistant; Charles A. Little, assistant; Martin G. Ferry, assistant; Charles O. Brown, Lester H. Plaisted and Otto Davis, rodmen, all of whom cheerfully performed the duties assigned to them.

The report of the hydrant commissioners and the board of examiners of plumbers will be found under their respective headings.

To the mayor and the city council I wish to express my appreciation for their counsel and support, and for the privilege of attending the annual meeting of the American Society of Municipal Improvements, whose sessions are a source of much valuable information and profit to men engaged on municipal works, also to the heads of other departments whose relations with this department have been pleasant.

W. B. HOWE, City Engineer.

BOARD OF EXAMINERS OF PLUMBERS.

CONCORD, N. H., December 31, 1908.

To the City Council:

The ninth annual report of the board of examiners of plumbers is herewith submitted for your consideration.

The membership of the board is as follows: William L. Reagan, a practical plumber, Charles H. Cook, M. D., and Will B. Howe, city engineer.

Nine meetings have been held during the year, and one applicant for a journeyman plumber's license has been examined and received his license.

The total receipts of the board were \$18, for which amount the clerk of the board holds receipts of the city treasurer.

The expenses of the board were \$3.08 for postage and materials for examination.

The following is a list of all the registered plumbers whose licenses or certificates were renewed during 1908:

Master Plumbers.

W. Arthur Bean, certificate renewed.
Elmer E. Babb, license renewed.
Charles W. Bateman, license renewed.
Frederick Booth, certificate renewed.
M. E. Clifford, certificate renewed.
Burton A. Curtis, license renewed.
Seth R. Hood, certificate renewed.
George A. Harwood, certificate renewed.
Timothy Kenna, license renewed.
William A. Lee, certificate renewed.
Michael J. Lee, certificate renewed.

Richard J. Lee, certificate renewed.
George S. Milton, certificate renewed.
George A. Nichols, license renewed.
Benjamin H. Orr, certificate renewed.
Willis H. Robbins, certificate renewed.
John C. Smith, license renewed.
William M. Trottier, license renewed.
Albert S. Trask, certificate renewed.

JOURNEYMAN PLUMBERS.

Joseph P. Audette, license issued June 18, 1908.
Arthur W. Bunten, license renewed.
George N. Berry, certificate renewed.
Patrick A. Clifford, certificate renewed.
Fred F. Converse, license renewed.
Henry P. Cilley, certificate renewed.
Philip King, certificate renewed.
Harry H. Kennedy, certificate renewed.
P. H. D. Leary, certificate renewed.
Frank M. Murray, license renewed.
William H. McGuire, certificate renewed.
William C. Morey, license renewed.
Manley W. Morgan, license renewed.
Thomas Matthews, license renewed.
Harris S. Parmenter, license renewed.
William L. Reagan, certificate renewed.
Henry Riley, license renewed.

Master plumbers, Journeyman plumbers, 19 17

36

Total issued, 1908,

Respectfully submitted,
CHARLES H. COOK, M. D.,
W. L. REAGAN,
WILL B. HOWE,
Board of Examiners of Plumbers.

REPORT OF HYDRANT COMMIS= SIONERS.

CONCORD, N. H., December 31, 1908.

To the City Council:

At a meeting held January 9, 1908, the board unanimously recommended placing hydrants at the following points and a letter covering the locations here given was forwarded to Hon. Solon A. Carter, president of the water board:

Church Street, 50 feet easterly from Bradley Street.

Tremont Street, 125 feet easterly from Harrod Street.

Tremont Street, at Jackson Street.

Jackson Street, east side near Cole's Court.

Pearl Street, 200 feet easterly from North State Street. Academy Street, between Cambridge and Washington Streets.

Huntington Street, at Short Street.

School Street, move hydrant next west to Pine and School Streets.

School Street, at Liberty Street.

Fruit Street, 700 feet southerly from Pleasant Street.

Laurel Street, at Grove Street.

Hall Street, 500 feet southerly from Hammond Street.

West Main Street, Penacook, at Pine Street.

Allison Street, at Badger Street.

On April 7, 1908, the board met in Penacook and located the following hydrants:

Penacook Street, in road to intervale at John Chadwick's. Penacook Street, 215 feet southerly from E. L. Davis' barn. A hydrant was set on Electric Avenue, Penacook, at Elliott Street, and one on the Iron Works Road near the Charles Brown place.

All hydrants recommended were set during the past season, excepting the one on South Fruit Street, which should be set the coming season to provide fire protection to the houses in this vicinity.

Respectfully submitted,
W. B. HOWE,
W. C. GREEN,
P. R. SANDERS,
Board of Hydrant Commissioners.

REPORT OF CEMETERY COMMIS= SIONERS.

CONCORD, N. H., January, 1909.

To the City Council:

In making our annual report the commissioners can only say that your appropriation has been expended in the planting of trees and shrubs and in the care and improvement of both cemeteries intrusted to our care. For the financial standing of the cemeteries we would refer you to the report of the city treasurer. The burials for the past year have been one hundred and ninety (190) in Blossom Hill Cemetery and thirty (30) in the Old North Cemetery.

The new chapel has been used but six (6) times the past year and the commissioners cannot understand why the public continue to have funeral services held in the undertakers' rooms when this beautiful chapel can be had free of expense.

We would again recommend that a small appropriation be made for the employment of a competent landscape architect to lay out the new section at Blossom Hill, which was purchased a few years ago of Mr. Bradley, so that when needed for new lots it would be ready for use. Whatever sum you may place at our disposal will be expended, we trust, in a manner that will merit your approval.

> GEORGE A. FOSTER, Secretary.

To His Honor the Mayor and the City Council:

The Millville cemetery committee respectfully submit the following report of the receipts and expenditures for the year 1908:

RECEIPTS.

From city treasurer, appropriation,	\$50.00	
trust funds,	44.56	
individuals,	11.94	
Total receipts,		\$106.50
Expenditures.

It is twenty years since work was commenced in developing White Park and during that time a beginning has been made on a system of parks which when completed will compare favorably with any city of the size of Concord.

Unlike many municipalities, the plan here has been to develop this system gradually, but a comparison of the beginning and the conditions which now obtain show a splendid amount of work accomplished. The appreciation and the use of the parks have been gratifying to those whose time and thought have been engaged in the administration of the work, and while conditions have not reached a completion, yet it is hoped that from year to year a greater advance can be made.

This year an advance has been made in the new work at White Park by the erection of a new gateway at the Pine Street entrance. Unusual difficulties were found in securing a good foundation owing to the bed of muck underlying the surface, and thereby increasing the cost, but the result has been very gratifying and with the new extension of the iron fence gives a more dignified and completed condition to this beautiful park.

It does not seem inappropriate that this new entrance be named the "Corning Gateway," in honor of our retiring mayor who has shown such interest in the development of the park system.

The usual care of maintenance has demanded the full time and attention of the superintendent and his assistants, who have taken great interest in their work. The subdivision of expense on account of each park will be found elsewhere.

New features which have been introduced have been at Rollins Park, where a merry-go-round has been placed to the great delight of the children, also the improvement of the shelters and planting new beds of rhododendrons. The city erected a commodious and ornate band stand at Court House Park, which was greatly needed. The old hedge

has been removed and some grading done on these grounds.

The new work proposed is the continuance of the iron fence along Centre Street at White Park regrading the playground.

The development of playgrounds, which is being so widely noticed, has been considered somewhat and is

worthy of a closer study.

We have already at Rollins and White Parks opportunities to make the experiment. However, to get the best results, it demands some equipment and a supervision so that the results shall not be haphazard. The marked success in other cities should lead us to consider it carefully. Other places could be found where the result would no doubt be such as to bring success. A large number of boys and young men gather at the extreme north end, on North State Street, where if some ground could be secured and arranged for baseball and other sports under competent supervision, it would undoubtedly prove successful. The question arises whether this should not be considered and a trial made.

CHARLES R. CORNING, Mayor, ex officio, WILLIS D. THOMPSON, GARDNER B. EMMONS, WILLIAM P. FISKE, CHARLES P. BANCROFT, BENJAMIN C. WHITE, WILLIS G. C. KIMBALL,

Commissioners.

REPORT OF COMMISSIONER OF HIGHWAYS.

To the City Council:

GENTLEMEN,—In submitting the annual report of the highway department for 1908, aside from a review of the work done, I can only repeat what I have already said in previous reports, that the demands made upon this department and the cost of labor are increasing every year without any increase in appropriations. While the work done under such appropriations as permanent work, new concrete walks and repairing concrete can be regulated by the amount raised, it is from general maintenance appropriation that the greatest number of demands must be met. Every citizen, in asking for repairs, thinks his particular street is the worst in the city and feels that his request should receive immediate attention, while probably there are many places in as bad or even worse condition. And so, though the department would gladly attend to every call if there were appropriation enough, with the amount which we have the commissioner is obliged to hold the people back and attend to those things which in his judgment are the most in need of attention.

It was necessary to do considerable work on bridges last summer. The Horse Hill and Federal bridges were painted and the Pembroke and Sewall's Falls shingled. The cost of painting was \$342.30 and the shingling \$1,753.80, and both amounts had to be taken from general maintenance. Next season the two bridges at Penacook and the Loudon bridge will have to be painted and all three re-planked.

For permanent work in 1908, nearly a mile of macadam was put in on the South Pembroke road, extending from that built in 1907 to the Gas House bridge. The work was contracted at a cost of \$3,250 to the city. There is now a fine boulevard from the bridge to the Pembroke line. The towns of Loudon and Hopkinton have put in pieces of state road which come to their town lines and they are anxious to have the road continued within the city limits. Macadam was also put in on South Main Street from Freight to Concord on the east side and from Freight to Hill's Avenue on the east side. This was an old macadam road which was completely worn out. The work of repairing it should be continued another season to connect with the state road. The granite block paving on North Main Street just north of the Eagle Hotel and from Pleasant to Warren Street was taken up and concrete laid. This does away with all the block paving from Pleasant to Park Street. Another section of macadam was put in on North State Street past Calvary cemetery, and it is a great improvement. At Penacook, the macadam should be carried to the town line to complete the work on the Penacook road. At the other end of the Penacook road near West Concord cemetery a piece of macadam should be put in to connect with that farther north. Fiske Street, from Church to Walker, also needs repairing. It is in very bad condition and should be macadamized.

Some experiments were made last summer with tar for preserving the surface of macadam roads and also as a preventative of dust. While the work is still in the experimental stage, thus far, tar has proved to be the best thing on the market.

Not so much work was done on eatch basins as usual. The following table shows the location, etc., of the new ones:

A larger number of concrete walks were repaired last season as the appropriation was increased to \$2,000 and the usual amount of new walks were granted and laid. The following regulation was voted by the board of mayor and aldermen, June 8, 1908:

"Voted, That the commissioner of highways be instructed as follows: Upon the granting of petitions for new concrete sidewalks, he shall notify the abuttor of the cost of such sidewalk and receive one half such amount from such abuttor before he shall construct such walk."

While Concord is fortunate in possessing beautiful trees it is unfortunate in having the brown-tail moth, which has been a considerable expense to property owners as well as the city. But the condition of the trees in Concord during the summer testified to the fact that the city and owners of real estate worked to exterminate the pest. Undoubtedly we shall be obliged to continue doing the same work for several years in order to rid ourselves of them. Should the

gypsy moth and elm tree beetle reach us we shall have a still more serious problem before us. Each year a number of dead trees are removed, and should this continue without replacing any of them we shall soon notice the loss. In New Jersey, the planting and care of all shade trees is in the hands of a commission. Where shade trees are to be set out the commission decides on the kind though the property owners are consulted as to their choice. A much better appearance is gained where only one kind of tree is planted than where several are found.

No change has been made in the collection of garbage, and about the same amount was collected as in 1907. At the request of the Woman's Club, the city council appropriated the sum of \$50 for installing refuse cans on Main Street. Twenty-four cans were put up at an expense of \$132.47. They do much for the good appearance of the business section.

There is a demand each year to have the sprinkling precinct extended. Should the various petitions for its extension, now under consideration, be granted, it will be necessary to purchase two new sprinklers. From the mayor, city council and the various city officials, this department has received many courtesies which I greatly appreciate.

Respectfully submitted,

ALFRED CLARK, Commissioner of Highways.

ASSESSORS' REPORT.

To the Taxpayers of the City of Concord:

The board of assessors submit for your consideration the following items and tabulations showing the valuation of property assessed, the amounts raised by the city, county and state, as general tax; also the warrant for each precinct, the resulting rate, and the total assessment as committed to tax collector.

The assessors have been for current year:

Ward 1. Oliver J. Fifield.

Ward 2. William A. Cowley.

Ward 3. Joseph E. Shepard.

Ward 4. George W. Parsons.

Ward 5. George A. Foster.

Ward 6. Osro M. Allen; Arthur F. Sturtevant, assistant.

Ward 7. John H. Quimby.

Ward 8. William A. Lee.

Ward 9. Thomas Nawn; James J. Donegan, assistant.

ITEMS OF VALUATION.

WENDELL P. LADD, Collector.

CONCORD, N. H., January 1, 1909.

REPORT OF CITY SOLICITOR.

To the City Council:

I respectfully submit the following report for the year 1908:

On December 31, 1907, the following suits against the city of Concord were pending in court: Concord Street Railway v. Concord, an appeal taken by the Concord Street Railway from an award of damages to it by the board of mayor and aldermen upon the laying out of a highway in Penacook; Joseph Stickney v. Concord, a petition for an abatement of taxes for the year 1900; Joseph Stickney v. Concord, a petition for an abatement of taxes for the year 1901; Jennie P. Martin v. Concord, a suit to recover damages for injury to the plaintiff's real estate on the corner of South State and Downing Streets which she claims has been caused by the backing up of water and sewage by reason of an insufficient and defective sewer; Louis A. Engel v. Concord and the Boston & Maine Railroad, a suit to recover damages on account of a change in the grade of North State Street in West Concord; Carolyn F. Stickney v. Concord, a petition for the assessment of damages on account of the laving out and construction of a sewer from North Main Street through her land to the river. This is an appeal from an award of three hundred dollars damages made to her by the board of mayor and aldermen; John N. Lane v. Concord, a writ of entry in which the plaintiff claims that in the recent improvements on the road leading to St. Paul's School the city has encroached upon and taken some of his land without right.

The cases of Concord Street Railway, Joseph Stickney,

Jennie P. Martin, Carolyn F. Stickney, and John N. Lane have not been pressed by the plaintiffs and no progress has been made in them since my last report. The case of Louis A. Engel has been settled by the Boston & Maine Railroad.

At the time of my last report the case of the *Woodsum Steamboat Company* v. *Sunapee* was pending in the supreme court. The city of Concord was interested in this case as explained in that report. The supreme court decided that the city of Concord was not entitled to tax the boats of the Woodsum Steamboat Company.

At the October term, 1908, of the superior court, Asa Emery filed a petition appealing from an order of the board of mayor and aldermen widening and straightening North State Street at a point opposite land belonging to said Emery. This case has not been disposed of.

I have, during the year, prosecuted many criminal cases for the police department before the police court. I have given advice and assistance, when required, to the board of assessors, to the various departments of the city government, and to committees and members of the city council.

Respectfully submitted,

EDMUND S. COOK, City Solicitor.

December 31, 1908.

REPORT OF CLERK OF POLICE COURT.

CONCORD, N. H., March 23, 1909.

To the City Council:

The clerk of the police court submits the following report:

The number of civil cases entered in police court January to December, 1908, inclusive, was one hundred and seven. Received entry fees for same, fifty cents for each entry, amounting to fifty-three dollars and fifty cents (\$53.50). Paid to city treasurer fifty-three dollars and fifty cents.

Respectfully submitted, RUFUS H. BAKER, Clerk of Police Court.

CEMETERY TRUSTS.—Concluded.

RECEIPTS OF OLD NORTH CEMETERY.

Amounts received from sundry collections and income of permanent funds are added to the annual appropriation. The amounts expended on trust funds are paid on a special order from the mayor, from the income of individual deposits made with the city for that purpose, said income being used exclusively for the care of the lot specified in each trust.

BLOSSOM HILL CEMETERY RECEIPTS.

One half of the receipts from the sale of lots is added annually to the permanent fund. The remaining half, with the amount received for grading of lots sold, together with the amounts received from sundry collections and income of permanent fund, are added each year to the annual appropriation. The amounts expended on trust funds are paid on a special order from the mayor from the income of individual deposits made with the city for that purpose, said income being used exclusively for the care of the lot specified in each trust.

By coupons paid 1908,	\$24.030.00	
Coupons due and not presented,	131.00	
		\$24,161.00

I hereby certify that I have examined the foregoing account of William F. Thayer, city treasurer, for the year 1908, and find all items of receipt and expenditure therein properly recorded and authenticated by appropriate vouchers, and the several items correctly east, and eash balance to be sixty-one thousand seventy-eight dollars and twenty-six cents (\$61,078.26), and as treasurer of the city water department, eash balance to be twenty-four thousand four hundred twelve dollars and forty cents (\$24,412.40).

I have also verified the account of the trust and sinking funds of the city, and find such trust and sinking funds invested, and the income thereof, for the year 1908, accounted for, as shown by the book of the city treasurer, kept for that purpose.

HENRY E. CHAMBERLIN, City Clerk,

CITY EXPENSES.
